NOTICE OF ANNUAL MEETING OF STOCKHOLDERS

Notice is hereby given that the annual meeting of stockholders of ALLHOME CORP. (the "Company" or "HOME") for the year 2022 will be held online on **June 24, 2022, Friday at 10:00 a.m.** with the proceedings livestreamed and voting conducted in absentia through the Company's secure voting online facility which may be accessed through the Company's website for the 2022 AGM: www.corporate.allhome.com.ph/asm2022.

The order of business thereat as follows:

- I. Call to order
- II. Certification of service of notice and presence of quorum
- III. Approval of the minutes of the last Annual Meeting of Stockholders held on June 25, 2021
- IV. Presentation of the President's Report, Management Report and Audited Financial Statements for the year 2021
- V. Ratification of all acts and resolutions of the Board of Directors and Management from the date of the last annual stockholders' meeting until the date of this meeting
- VI. Election of the members of the Board of Directors, including the Independent Directors, for the year 2022
- VII. Appointment of External Auditors
- VIII. Other Matters
- IX. Adjournment

The Board of Directors has fixed **17 May 2022** as the record date for the determination of stockholders entitled to notice of, and to vote at, said Annual Stockholders' Meeting.

In light of the current circumstances, and to ensure the safety and welfare of the Company's stockholders, the Company will dispense with the physical attendance of stockholders at the meeting and will allow attendance only by remote communication and voting only in absentia or by appointing the Chairman of the meeting as their proxy.

Stockholders who intend to participate in the meeting via remote communication and to exercise their vote in absentia must notify the Corporate Secretary by registering *in absentia* on or before **June 16, 2022**. All information submitted will be subject to verification and validation by the Corporate Secretary.

Stockholders who intend to appoint a proxy should submit duly accomplished proxy forms on or before **June 16, 2022** at the Office of the Corporate Secretary at **Upper Ground Floor, Worldwide Corporate Center, Shaw Boulevard, Mandaluyong City** and/or by email to omar_carino@rlsclawoffices.com.

The procedures for participating in the meeting through remote communication and for casting of votes in absentia are set forth in the Information Statement.

ARBIN OMAR P. CARIÑO
Corporate Secretary

AGENDA DETAILS AND RATIONALE

1. Certification of Notice and Quorum

The Corporate Secretary, Atty. Arbin Omar P. Cariño, will certify that copies of the Notice of Meeting were duly published in the business section of two (2) newspapers of general circulation, and will certify the number of shares represented in the meeting, for the purpose of determining the existence of quorum to validly transact business.

Pursuant to Sections 23 and 57 of the Revised Corporation Code and SEC Memorandum Circular No. 6, Series of 2020, the Corporation has set up a designated web address which may be accessed by the stockholders to participate and vote in absentia on the agenda items presented for resolution at the meeting. A stockholder who votes in absentia as well as a stockholder participating by remote communication shall be deemed present for purposes of quorum.

The following are the rules and procedures for the conduct of the meeting:

- (i) Stockholders may attend the meeting remotely through www.corporate.allhome.com.ph/asm2022 (the "Website"). Stockholders may send their questions or comments prior to the meeting by e-mail at ir@allhome.ph. The Website shall include a mechanism by which questions may be posted live during the meeting. The Company will endeavor to answer all questions submitted prior to and in the course of the meeting, or separately through the Company's Investor Relations Office within a reasonable period after the meeting.
- (ii) Each of the Agenda items which will be presented for resolution will be shown on the screen during the live streaming as the same is taken up at the meeting.
- (iii) Stockholders must notify the Company of their intention to participate in the meeting by remote communication to be included in determining quorum, together with the stockholders who voted in absentia and by proxy.
- (iv) Voting shall only be allowed for stockholders registered in the Company's Electronic Voting in Absentia System provided in the Company's website for the 2022 Annual Meeting of Stockholders or through the Chairman of the meeting as proxy.
- (v) All the items in the Agenda for the approval by the stockholders will need the affirmative vote of stockholders representing at least a majority of the issued and outstanding voting stock represented at the meeting.
- (vi) Election of directors will be by plurality of votes and every stockholder will be entitled to cumulate his votes.
- (vii) The Company's stock transfer agent and Corporate Secretary will tabulate and validate all votes received.

2. Approval of the minutes of the last Annual Meeting of Stockholders held on June 25, 2021

The minutes of the last Annual Meeting of Stockholders held on June 25, 2021 will be presented for approval by the stockholders, in keeping with Section 49(a) of the Revised Corporation Code.

A copy of such minutes has been uploaded on the Company's website.

3. President's Report, Management Report and Audited Financial Statements as of and for the year ended December 31, 2021

The audited financial statements ("AFS") of the Company as of and for the year ended December 31, 2021 (as audited by Punongbayan & Araullo), a copy of which is incorporated in the Definitive Information Statement for this meeting, will be presented for approval by the stockholders. The President and CEO of the Company, Ms. Benjamarie Therese N. Serrano, will deliver a report to the stockholders on the Company's performance for the year 2021 (which will include highlights from the AFS) and the outlook for 2022.

The Board and Management of the Company believe it is in keeping with the Company's thrust to at all times observe best corporate governance practices, that the results of operations and financial condition of the Company be presented and explained to the shareholders. Any comment from the shareholders, and their approval or disapproval of these reports, will provide guidance to the Board and Management in their running of the business and affairs of the Company.

4. Ratification of all acts and resolutions of the Board of Directors and Management from the date of the last annual stockholders' meeting until the date of this meeting

Ratification by the stockholders will be sought for all the acts and resolutions of the Board of Directors and all the acts of Management taken or adopted from the date of the last annual stockholders' meeting until the date of this meeting. A brief summary of these resolutions and actions is set forth in the Definitive Information Statement for this meeting. Copies of the minutes of the meetings of the Board of Directors are available for inspection by any shareholder at the offices of the Company during business hours.

The Board and Management of the Company believe it is in keeping with the Company's thrust to at all times observe best corporate governance practices, that ratification of their acts and resolutions be requested from the shareholders in this annual meeting. Such ratification will be a confirmation that the shareholders approve the manner that the Board and Management run the business and affairs of the Company.

5. Election of the members of the Board of Directors, including the Independent Directors, for the year 2022

The Corporate Secretary will present the names of the persons who have been duly nominated for election as directors of the Company in accordance with the By-Laws and Revised Manual on Corporate Governance of the Company and applicable laws and regulations. The voting procedure is set forth in the Definitive Information Statement for this meeting.

6. Appointment of External Auditors

The Audit Committee is endorsing to the stockholders the re-appointment of Punongbayan & Araullo ("P&A") as external auditor of the Company for the fiscal year 2022.

Dissenters' Right of Appraisal

Under Section 80, Title X, of the Revised Corporation Code of the Philippines ("Corporation Code").

Any stockholder of the Registrant shall have the right to dissent and demand payment of the fair value of his shares only in the following instances, as provided by the Revised Corporation Code:

- (1) In case any amendment to the articles of incorporation has the effect of changing or restricting the rights of any stockholder or class of shares, or of authorizing preferences in any respect superior to those outstanding shares of any class, or of extending or shortening the term of corporate existence;
- (2) In case of sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the corporate property and assets;
- (3) In case of merger or consolidation; and
- (4) In case of investments in another corporation, business or purpose.

The appraisal right, when available, may be exercised by any stockholder who shall have voted against the proposed corporate action, by making a written demand on the corporation within thirty (30) days after the date on which the vote was taken, for payment of the fair value of his shares; Provided, That failure to make the demand within such period shall be deemed a waiver of the appraisal right. A stockholder must have voted against the proposed corporate action in order to avail himself of the appraisal right. If the proposed corporate action is implemented or effected, the corporation shall pay to such stockholder upon surrender of his certificate(s) of stock representing his shares, the fair value thereof as of the day prior to the date on which the vote was taken, excluding any appreciation or depreciation in anticipation of such corporate action.

If within a period of sixty (60) days from the date the corporate action was approved by the stockholders, the withdrawing stockholder and the corporation cannot agree on the fair value of the shares, it shall be determined and appraised by three (3) disinterested persons, one of whom shall be named by the stockholder, another by the corporation and the third by the two thus chosen. The findings of the majority of appraisers shall be final, and their award shall be paid by the corporation within thirty (30) days after such award is made: Provided, that no payment shall be made to any dissenting stockholder unless the corporation has unrestricted retained earnings in its books to cover such payment; and Provided, Further, That upon payment by the corporation of the agreed or awarded price, the stockholder shall forthwith transfer his shares to the corporation.

None of the matters that are proposed to be taken up during the meeting gives a dissenter a right of appraisal.

Interest of Certain Persons in or Opposition to Matters to be Acted Upon

None of the officers or directors or any of their associates has any substantial interest, direct or indirect, in any of the matters to be acted upon in the stockholders' meeting.

No director has informed the Registrant in writing that he intends to oppose any action to be taken at the meeting.

CONTROL AND COMPENSATION INFORMATION

Voting Securities and Principal Holders Thereof

(a) Number of shares outstanding as of 31 March 2022

Common: 3,750,000,002

(b) Record Date: 17 May 2022

Each common share of stock of the Registrant is entitled to one (1) vote. Pursuant to Article V, Section 4 and Article VI Section 7 of the Registrant's By-Laws, all stockholders of the corporation shall have the right to participate and vote during meetings of the stockholders, including the Annual Stockholders' Meeting, either in person or by proxy executed in writing by the stockholder and filed with the corporate secretary within five business days before the scheduled meeting.

Stockholders entitled to vote are also entitled to cumulative voting in the election of directors. Section 23 of the Revised Corporation Code provides, in part, that: "...in stock corporations, stockholders entitled to vote shall have the right to vote the number of shares of stock standing in their own names in the stock books of the corporation at the time fixed in the bylaws or where the bylaws are silent, at the time of election. The said stockholder may: (a) vote such number of shares for as many persons as there are directors to be elected; (b) cumulate said shares and give one (1) candidate as many votes as the number of directors to be elected multiplied by the number of shares owned; or (c) distribute them on the same principle among as many candidates as may be seen fit...."

All the incumbent Directors above have one (1) year term of office and all have been nominated for re-election to the Board of Directors.

The By-Laws of the Registrant conforms with SRC Rule 38, as amended, with regard to the nomination of independent directors of the Registrant. Article I, Sections 2, 3 and 4 of the Registrant's By-Laws provide as follows:

“Section 2. Independent Directors – The members of the Board of Directors must have at least one (1) share of the capital stock of the corporation. They shall serve for a

period of one (1) year and until their successors are elected and qualified. The Board should have at least two (2) independent directors, or such number as to constitute at least one-third (1/3) of the members of the Board, whichever is higher.

Section 3. Election – The directors shall be elected from among the stockholders during the annual meeting of the stockholders at the principal office of the corporation.

Section 4. Disqualification – No stockholder convicted by final judgment of an offense punishable by imprisonment for a period exceeding six (6) years, or a violation of the Revised Corporation Code of the Philippines, committed within five (5) years prior to the date of election shall qualify as a director. A stockholder shall not be eligible to be elected as a director if he is engaged in any business which competes with or is antagonistic to that of the Corporation. Without limiting the generality of the foregoing, a person shall be deemed to be so engaged:

- (a) If he is an officer, manager, or controlling person of, or the owner (either of record or beneficially) of 10% or more of any outstanding class of shares of, any corporation (other than one in which the Corporation owns at least 30% of the capital stock) engaged in a business which the Board of Directors, by at least three-fourths (3/4) vote, determines to be competitive or antagonistic to that of the Corporation; or
- (b) If he is an officer, manager, or controlling person of, or the owner (either of record or beneficially) of 10% or more of any outstanding class of shares of, any other corporation or entity engaged in any line of business of the Corporation, when in the judgment of the Board of Directors, by at least three-fourths (3/4) vote, the laws against combinations in restraint of trade shall be violated by such person's membership in the Board of Directors; or
- (c) If the Board of Directors, in the exercise of its judgment in good faith, determines at least three-fourths (3/4) vote that he is the nominee of any person set forth in (a) or (b);

In determining whether or not a person is a controlling person, beneficial owner, or the nominee of another, the Board of Directors may take into account such factors as business and family relationship.

Notwithstanding the foregoing prohibition, a stockholder may still be qualified or eligible for nomination or election to the Board of Directors if:

- (a) The perceived competing business controls the Corporation (i.e., competing business owns at least majority of the Corporation), is under common control with the Corporation (i.e., the same ultimate beneficial stockholder has control of both Corporations), or is controlled by the Corporation (i.e., at least majority of the competing business is owned by the Corporation); or
- (b) The perceived competing business is a related party to the Corporation where the nominee in question is a person identified as a person with significant influence over the Corporation and the perceived competing business, or the nominee in question is a member of the key management personnel of the Corporation and the perceived competing business.

For the proper implementation of this provision, all nominations for the election of directors by the stockholders shall be submitted in writing to the Corporate Governance Committee on or before such date that the Board of Directors may fix."

On the other hand, SRC Rule 38, as amended, provide in part as follows:

“8. Nomination and Election of Independent Director/s

The following rules shall be applicable to all covered companies:

- A. The Nomination Committee (the "Committee") shall have at least three (3) members, one of whom is an independent director. It shall promulgate the guidelines or criteria to govern the conduct of the nomination. The same shall be properly disclosed in the Registrant's information or proxy statement or such other reports required to be submitted to the Commission.
- B. Nomination of independent director/s shall be conducted by the Committee prior to a stockholders' meeting. All recommendations shall be signed by the nominating stockholders together with the acceptance and conformity by the would-be nominees.
- C. The Committee shall pre-screen the qualifications and prepare a final list of all candidates and put in place screening policies and parameters to enable it to effectively review the qualifications of the nominees for independent director/s.
- D. After the nomination, the Committee shall prepare a Final List of Candidates which shall contain all the information about all the nominees for independent directors, as required under Part IV (A) and (C) of Annex "C" of SRC Rule 12, which list, shall be made available to the Commission and to all stockholders through the filing and distribution of the Information Statement, in accordance with SRC Rule 20, or in such other reports the Registrant is required to submit to the Commission. The name of the person or group of persons who recommended the nomination of the independent director shall be identified in such report including any relationship with the nominee.
- E. Only nominees whose names appear on the Final List of Candidates shall be eligible for election as Independent Director/s. No other nominations shall be entertained after the Final List of Candidates shall have been prepared. No further nominations shall be entertained or allowed on the floor during the actual annual stockholders'/memberships' meeting.”

The Registrant has complied with the guidelines on the nomination and election of independent directors set forth in Rule 38 of the Amended Implementing Rules and Regulations of the Securities Regulation Code. The nominated independent directors, namely, Ms. Laura Suarez Acuzar and Ms. Jessie D. Cabaluna were duly nominated by Mr. Romeo M. Sabater, a registered shareholder of the Registrant who is not a director, officer or substantial shareholder of the Registrant and who is not related to either of the said nominees. The Nominations Committee of the Company is composed of Mr. Manuel B. Villar, Jr., Chairman, Camille A. Villar, Member, and Laura Suarez Acuzar, Independent Director.

Under recommendation 5.3 of SEC Memorandum Circular No. 19, Series of 2016, the SEC allows independent directors the maximum tenure of nine (9) years to sit in the Board of a publicly listed company. The tenure of the independent directors is still within the permissible period under the said SEC recommendation as Ms. Laura Suarez Acuzar and Ms. Jessie D. Cabaluna were elected as independent directors in 2019.

Legend: (A) Absent, (P) Present

The Board has established committees to assist in exercising its authority in monitoring the performance of the Company in accordance with its Corporate Governance Manual and Code of Business Ethics.

Term of Office

Directors elected during the annual meeting of stockholders will hold office for one year until their successors are duly elected and qualified. A director who was elected to fill any vacancy holds office only for the unexpired term of his predecessor.

Resignations/Declined Nominations

Due to the resignation of Atty. Jo Marie Lazaro-Lim as Corporate Secretary effective 6 May 2022, Atty. Arbin Omar Cariño was elected in her place effective on the same date. The SEC Form 17C reflecting such change was submitted by the Company on 6 May 2022.

To date, no Director has resigned or declined to stand for re-election to the Board of Directors since the date of the last annual stockholders' meeting due to disagreement with the Registrant on any matter relating to the Registrant's operations, policies or practices.

Significant Employees

The Registrant has no other significant employee other than its Executive Officers.

Family Relationships

Manuel B. Villar, Jr., is the father of Manuel Paolo A. Villar and Camille A. Villar. Except for said relationship, none of the aforementioned Directors or Executive Officers is related to the others by consanguinity or affinity within the fourth civil degree.

Certain Relationships and Related Transactions

As of March 31, 2022, the Villar Family Companies held 67.74% of the total issued and outstanding common share capital of the Company

The Company and its subsidiaries, in their ordinary course of business, engage in transactions with the Villar Family Companies and their respective subsidiaries. The Company's policy with respect to related-party transactions is to ensure that these transactions are entered into on terms at least comparable to those available from unrelated third parties.

The transactions with related parties for the year ended December 31, 2021 are discussed in the Company's 2021 Audited Financial Statements attached in this Information Statement. Please see Notes 2.15, pages 19 to 20 and Note 18, pages 42 to 44 of the Notes to the Financial Statements accompanying the Company's 2021 Audited Financial Statements. All individual material related party transactions shall be approved by at least two-thirds vote of the BOD, with at least a majority of the independent directors voting to approve the material related party transactions.

The Company's directors and employees are required to promptly disclose any business and family-related transactions with the Company to ensure that potential conflicts of interest are surfaced and brought to the attention of management. None of the Company's directors has entered into self-dealing and related party transactions with or involving the Company in 2021.

Involvement in Certain Legal Proceedings

None of the aforementioned Directors or Executive Officers is, or has been, involved in any criminal or bankruptcy proceeding, or is, or has been, subject to any judgment of a competent court barring or otherwise limiting his involvement in any type of business, or has been found to have violated any securities laws during the past five (5) years and up to the latest date.

Warrants and options held by the executive officers and directors

There are no outstanding warrants or options held by the Company's CEO, the named executive officers, and all officers and directors as a group.

Significant employee

While the Company values the contribution of each of its executive and non-executive employees, the Company believes there is no non-executive employee that the resignation or loss of whom would have a material adverse impact on the business of the Company. Other than standard employment contracts, there are no special arrangements with non-executive employees of the Company.

Independent Public Accountants

The auditing firm of Punongbayan & Araullo ("P&A") is being recommended for election as external auditor for the current year. The Company is compliant with SRC Rule 68, (3), (b), (iv), requiring the rotation of external auditors or engagement partners for a period of five (5) consecutive years as P&A has been the external auditor of the Company since 2018.

Representatives of the said firm are expected to be present at the annual stockholders' meeting and will have the opportunity to make a statement if they desire to do so, and are expected to be available to respond to appropriate questions. In 2021, the Registrant's auditors did not perform any substantial non-audit services for the Registrant.

Changes in and Disagreement with Accountants on Accounting and Financial Disclosure

The Company has not had any material disagreements on accounting and financial disclosures with its current external auditor for the same periods.

There are no disagreements with auditors on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved to their satisfaction, would have caused the auditors to make reference thereto in their reports on the financial statements of the Company and its subsidiaries.

Audit Committee's Approval Policies and Procedures

In relation to the audit of the Registrant's annual financial statements, the Registrant's Corporate Governance Manual provides that the audit committee shall, among other activities, (i) evaluate significant issues reported by the external auditors in relation to the adequacy, efficiency and effectiveness of policies, controls, processes and activities of the Registrant; (ii) ensure that other non-audit work provided by the external auditors are not in conflict with their functions as external auditors; and (iii) ensure the compliance of the Registrant with acceptable auditing and accounting standards and regulations.

The Audit Committee of the Registrant is composed of Ms. Laura Suarez Acuzar, Chairman, and Mr. Manuel Paolo A. Villar and Ms. Jessie D. Cabaluna, members.

OTHER MATTERS

Action with Respect to Reports

The following reports will be submitted for approval and reference by the stockholders:

1. Minutes of the last Annual Meeting of Stockholders held on June 25, 2021, covering the following matters: (i) approval of the Minutes of Meeting of the Annual Stockholders' Meeting held on July 22, 2020; (ii) President's Report and approval of the Audited Financial Statements for the year ended 31 December 2020; (iii) ratification of all acts of the Board of Directors and Management since the annual stockholders' meeting held in June 25, 2021; (iv) election of the directors and independent directors of the Company for the ensuing fiscal year; (v) appointment of the external auditor of the Company for the fiscal year 2021; and (vi) other matters.
2. The President's Report; and
3. Audited Financial Statements for the year 2021.

The 2021 Annual Meeting of the Shareholders was held via remote communication and was attended by the shareholders, the Board of Directors, and various officers of the Corporation. The shareholders were allowed to vote on each agenda item presented to them for approval, with the number of votes approving each agenda item indicated in their respective sections in the Minutes. The shareholders were also given the opportunity through electronic mail to ask questions, express opinion, and make suggestions on various issues related to the Corporation. In compliance with Section 49 of the Revised Corporation Code, the Minutes of the Annual Meeting of the Shareholders held on June 25, 2021 and the 2021 Definitive Information Statement contain the following: (a) a description of the voting and tabulation procedures used in the meeting, (b) a description of the opportunity given shareholders to ask questions and a description of the nature of the questions, (c) matters discussed and resolutions reached and the record of the voting results for each agenda item and (d) a list of the directors and shareholders who attended the meeting.

Matters Not Required to be Submitted

There are no matters or actions to be taken up in the meeting that will not require the vote of the stockholders as of the record date.

Other Proposed Actions

1. Ratification of all acts and resolutions of the Board of Directors and Management for the year 2021 until the date of the meeting, as set forth in the minutes of the meetings of the Board of Directors held during the same period and in the disclosures that have been duly filed with the SEC and the PSE. These minutes cover the approval of the quarterly and annual reports of the Registrant filed with the SEC and the PSE; resignation/election of members of the Board of Directors; appointment of authorized signatures for various transactions in the normal course of business of the Company as well as opening and closure of various investment and/or deposit accounts.
2. Election of External Auditors

Voting Procedures

Manner of voting

In all items for approval, except in the election of directors, each share of stock entitles its registered owner to one vote.

For the purpose of electing directors, a stockholder may vote such number of his shares for as many persons as there are directors to be elected or he may cumulate said shares and give one candidate as many votes as the number of directors to be elected multiplied by the number of his shares shall equal, or he may distribute them in the same principle among as many candidates as he shall see fit. Unless required by law, or demanded by a stockholder present or represented at the meeting and entitled to vote thereat, voting need not be by ballot and will be done by show of hands.

Voting requirements

- (a) With respect to the election of directors, candidates who received the highest number of votes shall be declared elected.
- (b) With respect to the adoption of the Audited Financial Statements for the year ended 31 December 2021, as well as the approval or ratification of the other actions set forth under the heading "Other Proposed Actions" above, the vote of majority of the outstanding capital stock entitled to vote and represented in the meeting is required to approve such matters.

Method of counting votes

The Corporate Secretary will be responsible for counting votes based on the number of shares entitled to vote owned by the stockholders who are present or represented by proxies at the Annual Meeting of the stockholders.

Quarter Ended March 31, 2022 compared to quarter ended March 31, 2021 Sales

The company recorded sales of ₱3,238.6 million for the quarter ended 31 March 2022, a decrease of 9.8% from ₱3,591.8 million for the quarter ended 31 March 2021. This was mainly brought about by the decline in foot traffic in January to mid-February due to Covid-19 Omicron infection surge but eventually improved in the latter part of February and onwards as Alert Level 1 started to be implemented on March 1. The following table shows the key operating performance indicators relevant to the revenues for the period ended 31 March 2022 and 2021.

Cost of Merchandise Sold

For the quarter ended 31 March 2022, cost of merchandise sold was at ₱2,070.3 million, a decrease of 15% from the ₱2,447.5 million level for the same period in 2021 corresponding to the decrease in sales as well as due to lower cost of goods due to advance inventory buys in the previous quarters.

Support, Fees, Rentals and Other Revenues

Support, fees, rentals and other revenues decreased by 8% from ₱70.5 million for the quarter ended 31 March 2021 to ₱64.7 million for the quarter ended 31 March 2022, primarily due to the decrease in vendor's support.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased by 14% to ₱765.6 million for the quarter ended 31 March 2022 from ₱673.7 million for the same period in 2021, primarily due to the following:

- Increase in professional fees from ₱1.2 million for the quarter ended 31 March 2021 to ₱3.5 million for the quarter ended 31 March 2022 due to audit fees, BOD fees, and consultancy fees for sustainability reporting and e-commerce.
- Increase in depreciation and amortization from ₱253.7 million for the quarter ended 31 March 2021 to ₱388.8 million for the quarter ended 31 March 2022 primarily as a result in the increase of the number of stores.
- Increase in commission expense from ₱434.5 thousand from quarter ended 31 March 2021 to ₱528.5 thousand for the quarter ended 31 March 2022 as most corporate sales during the period were generated by external or third party sales teams.
- Increase in office and store supplies from ₱4.5 million for the quarter ended 31 March 2021 to ₱5.4 million for the quarter ended 31 March 2022 due primarily to purchases of supplies in the head office and due to increase in the number of stores.
- Increase in repairs and maintenance from ₱4.4 million for the quarter ended 31 March 2021 to ₱5.2 million for the quarter ended 31 March 2022 due additional sanitation implemented due to Covid-19 Omicron surge in the first half of the quarter.
- Increase in advertising and promotions from ₱2.2 million for the quarter ended 31 March 2021 to ₱2.6 million for the quarter ended 31 March 2022 due to usage of online and digital platforms for marketing purposes especially during the all-out sale of the Company.
- Increase in transportation expense from ₱1.1 million for the quarter ended 31 March 2021 to ₱1.3 million for the quarter ended 31 March 2022 primarily due to increasing fuel prices and also due to increase in deliveries from distribution centers to stores as well as inter-store stock transfers.
- Increase in salaries and wages from ₱85.0 million for the quarter ended 31 March 2021 to ₱95.2 million for the quarter ended 31 March 2022 due to the additional manpower for new stores.
- Increase in miscellaneous from ₱1.9 million for the quarter ended 31 March 2021 to ₱2.1 million for the quarter ended 31 March 2022 due to loss on disposal of defective assets under property and equipment.

- Increase in taxes and licenses from ₱26.0 million for the quarter ended 31 March 2021 to ₱28.4 million for the quarter ended 31 March 2022 due to the increasing number of newly opened stores.
- Increase in merchant fee from ₱29.8 million for the quarter ended 31 March 2021 to ₱31.0 million for the quarter ended 31 March 2022 due to the sales contributed by the new stores.
- Increase in outside services from ₱74.8 million for the quarter ended 31 March 2021 to ₱77.3 million for the quarter ended 31 March 2022 due to the additional manpower from agencies and delivery charges for inventory stocking for new stores and inter-store transfer of inventory stocks.
- Increase in communication and utilities from ₱70.2 million for the quarter ended 31 March 2021 to ₱70.7 million for the quarter ended 31 March 2022 primarily to the opening of new stores.
- Incurred a gain on lease modification of ₱21.4 million for the quarter ended 31 March 2022 due to derecognition and termination of rent of the Alabang stores, accounted under PFRS 16, due to the fire incident.
- Decrease in dues and subscription from ₱2.6 million for the quarter ended 31 March 2022 to ₱2.5 million for the quarter ended 31 March 2021 due to cost-saving measures implemented which include limited postings in online job portals.
- Decrease in insurance expense from ₱1.5 million for the quarter ended 31 March 2021 to ₱1.0 million for the quarter ended 31 March 2022 due to the Alabang stores temporary closure.
- Decrease in rentals from ₱112.8 million for the quarter ended 31 March 2021 to ₱70.9 million for the quarter ended 31 March 2022 due to lower sales given the cost structure of rental computation.
- Decrease in representation and entertainment from ₱1.7 million for the quarter ended 31 March 2021 to ₱0.6 million for the quarter ended 31 March 2022 due to the minimal physical meetings due to Covid-19 Omicron surge in the first half of the quarter.

Finance Cost, net

Finance cost, net increased from ₱82.1 million for the quarter ended 31 March 2021 to ₱100.5 million for the quarter ended 31 March 2022. The net increase was primarily attributable to the increase of ₱19.4 million in interest expense from loans payable and slightly offset by the decrease of ₱1.3 million in interest expense from lease liability.

Tax Expense

Tax expense decreased by 20% from ₱114.7 million for the quarter ended 31 March 2021 to ₱91.7 million for the quarter ended 31 March 2022 due to lower taxable income for the quarter.

Fire Loss

On January 8, 2022, the Company's store outlets located at Alabang, Muntinlupa City, were severely damaged by fire. The estimated losses on inventory and property and equipment amounted to ₱83.8 million and ₱219.3 million, respectively.

Net Profit

As a result of the foregoing, our net profit or loss decreased by 108% from ₱344.2 million net income for the quarter ended 31 March 2021 to ₱27.9 million net loss for the quarter ended 31 March 2022.

As of March 31, 2022 no known trends, events or uncertainties that are reasonably expected to have impact on sales/revenues/income from continuing operations except for those being disclosed in the 3-month of 2022 financial statements.

As of 31 March 2022 vs. 31 December 2021

Total assets as of 31 March 2022 were ₱25,369.6 million compared to ₱25,812.7 million as of 31 December 2021, or a 2% decrease due to the following:

- Cash decreased by 34% from ₱1,885.5 million as of 31 December 2021 to ₱1,243.4 million as of 31 March 2022 as the cash generated were used primarily for the capital expenditures of new stores undergoing fit-out, and setting up of new head offices and data centers as previous offices were damaged by fire.
- Trade and other receivables increased by 25% from ₱383.8 million as of 31 December 2021 to ₱479.3 million as of 31 March 2022 due mainly to increase in accredited corporate accounts during the period.
- Merchandise Inventories increased by 1% from ₱7,055.6 million as of 31 December 2021 to ₱7,160.3 million as of 31 March 2022 due primarily to slightly lower purchases of inventories in the first quarter.
- Property and equipment decreased by 2% from ₱13,605.5 million as of 31 December 2021 to ₱13,275.4 million as of 31 March 2022 due primarily to disposals attributed to the Alabang fire.
- Other assets increased by 11% from ₱2,882.2 million as of 31 December 2021 to ₱3,211.3 million as of 31 March 2022 due primarily to advances to suppliers and contractors.

Total liabilities as of 31 December 2021 were ₱11,186.7 million compared to ₱10,771.5 million as of 31 March 2022, or a 4% decrease. This was due to the following:

- Trade and other payables decreased by 23% from ₱1,229.7 million as of 31 December 2021 to ₱944.7 million as of 31 March 2022 due to payments of payables for the purchases of inventories and fit-out construction.
- Loans payable including non-current portion as of 31 March 2022 is same as of 31 December 2021 at ₱4,944.4 million as no additional loan was incurred for the quarter.
- Lease liability including non-current portion decreased by 5% from ₱4,541.7 million as of 31 December 2021 to ₱4,322.0 million as of 31 March 2022 due to lease payments made.
- Income tax payable increased by 75% from ₱89.7 million as of December 31, 2021 to ₱157.3 million as of 31 March 2022 due to tax payable for the period.
- Deferred tax liabilities increased by 6% from ₱310.8 million as of December 31, 2021 to ₱329.2 million as of 31 March 2022 due to the adjustments to temporary tax differences for the period.
- Retirement benefit obligation increased by 5% from ₱70.4 million as of 31 December 2021 to ₱74 million as of 31 March 2022 due to adjustment of provision for the retirement benefit.

Total stockholder's equity decreased by 0.2% from ₱14,626 million as of 31 December 2021 to ₱14,598.1 million as of 31 March 2022 due to net loss recorded for the period.

Material Changes to the Company's Statement of income for the 3-month of 2022 compared

to the 3- month of 2021 (increase/decrease of 5% or more)

The company recorded sales of ₱3,238.6 million for the quarter ended 31 March 2022, a decrease of 9.8% from ₱3,591.8 million for the quarter ended 31 March 2021. This was mainly brought about by the decline in foot traffic in January to mid-February due to Covid-19 Omicron infection surge but eventually improved in the latter part of February and onwards as Alert Level 1 started to be implemented on March 1.

For the quarter ended 31 March 2022, cost of merchandise sold was at ₱2,070.3 million, a decrease of 15% from the ₱2,447.5 million level for the same period in 2021 corresponding to the decrease in sales as well as due to lower cost of goods due to advance inventory buys in the previous quarters.

Support, fees, rentals and other revenues decreased by 8% from ₱70.5 million for the quarter ended 31 March 2021 to ₱64.7 million for the quarter ended 31 March 2022, primarily due to the decrease in vendor's support.

Selling, general and administrative expenses increased by 14% to ₱765.6 million for the quarter ended 31 March 2022 from ₱673.7 million for the same period in 2021 due to the above-mentioned reasons.

Finance cost, net increased from ₱82.1 million for the quarter ended 31 March 2021 to ₱100.5 million for the quarter ended 31 March 2022. The net increase was primarily attributable to the increase of ₱19.4 million in interest expense from loans payable and slightly offset by the decrease of ₱1.3 million in interest expense from lease liability.

On January 8, 2022, the Company's store outlets located at Alabang, Muntinlupa City, were severely damaged by fire. The estimated losses on inventory and property and equipment amounted to ₱83.8 million and ₱219.3 million, respectively.

Revenues

The company recorded sales of ₱14,324.9 million for the year ended 31 December 2021, an increase of 15% from ₱12,414.1 million for the year ended 31 December 2020. This was mainly brought about by the same store sales growth of existing 50 stores as of 31 December 2020 as well as the revenues generated from 7 additional stores launched since then until 31 December 2021. The growth over last year's revenues emanated from the low sales generated last year when the pandemic broke out and the strictest lockdown ensued, that have temporarily closed all the company's Luzon stores for two months. The lockdown this year allowed all company stores to continue operation although at shortened hours due to curfew restrictions.

The following table shows the key operating performance indicators relevant to the revenues for the period ended 31 December 2021 and 2020. The company has opened seven (7) stores this year, bringing its total net selling space to 297,469 sqms.

	As of and for the period ended 31 December		Percentage Change
	2021	2020	
Number of stores	57	50	14.0%
Net Selling Area (in sqms)	297,469	331,590	-10.3%
Net Sales (₱ millions)	14,325	12,414	15.4%

SSSG	8.1%	3.5%	131.4%
------	------	------	--------

The pandemic enabled the company to reassess and come up with operational efficiency initiatives such as allotting larger store space for fulfillment/logistics area of increasing E-Commerce sales, increased store warehouse area to minimize DC spare requirement for increased outright buys and for in-house brand expansion, and maximizing store inventory capacity through vertical display efficiency resulting to smaller and optimized selling area.

Cost of Merchandise Sold

For the year ended 31 December 2021, cost of merchandise sold was at ₱9,306.1 million, an increase of 10% from the ₱8,486.1 million level for the same period in 2020 corresponding to the increase in sales in existing stores and the sales contributed by the new stores added during the year.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased by 24% to ₱3,156.4 million for the year ended 31 December 2021 from ₱2,539.7 million for the same period in 2020, primarily due to the following:

- Increase in impairment loss from ₱5.6 million for the year ended 31 December 2020 to ₱50.1 million for the year ended 31 December 2021 as management assessed that additional receivables are no longer collectible.
- Increase in professional fees from ₱7.4 million for the year ended 31 December 2020 to ₱18.0 million for the year ended 31 December 2021 on account of the corporate notes issued during the period.
- Increase in commission expense from ₱2.6 million the year ended 31 December 2020 to ₱4.5 million for the year ended 31 December 2021 due to increase in corporate sales during the period.
- Increase in miscellaneous from ₱16.6 million for the year ended 31 December 2020 to ₱27.6 million for the year ended 31 December 2021 due to loss on disposal of defective assets under property and equipment.
- Increase in rental payments from ₱343.4 million for the year ended 31 December 2020 to ₱467.4 million for the year ended 31 December 2021 primarily due to higher sales base of variable lease in existing stores and the sales contributed by the new stores added during the year.
- Increase in depreciation and amortization from ₱905.2 million for the year ended 31 December 2020 to ₱1,200.7 million for the year ended 31 December 2021 primarily as a result of increase in the number of stores.
- Increase in outside services from ₱288.3 million for the year ended 31 December 2020 to ₱363.4 million for the year ended 31 December 2021 due to the additional manpower from agencies and delivery charges for inventory stocking for new stores and inter-store transfer of inventory stocks.
- Increase in representation and entertainment from ₱5.5 million for the year ended 31 December 2020 to ₱6.8 million for the year ended 31 December 2021 due to increasing physical meetings and some events being held live in the latter part of the year on account of easing up of restrictions.

- Increase in communication and utilities from ₱271.0 million for the year ended 31 December 2020 to ₱333.4 million for the year ended 31 December 2021 primarily as a result of increase in number of stores.
- Increase in salaries and wages from ₱327.7 million for the year ended 31 December 2020 to ₱363.7 million for the year ended 31 December 2021 due to the additional manpower for new stores.
- Increase in taxes and licenses from ₱102.3 million for the year ended 31 December 2020 to ₱107.2 million for the year ended 31 December 2021 due to the increasing number of newly opened stores combined with higher sales of the existing stores.
- Increase in insurance expense from ₱8.9 million for the year ended 31 December 2020 to ₱9.2 million for the year ended 31 December 2021 due to increase in the number of stores.
- Decrease in merchant fee from ₱127.9 million for the year ended 31 December 2020 to ₱120.9 million for the year ended 31 December 2021 primarily due to renegotiated merchant discount rates with debit and credit card acquirers.
- Decrease in office and store supplies from ₱29.4 million for the year ended 31 December 2020 to ₱23.1 million for the year ended 31 December 2021 due to cost-saving measures implemented and transition to more online and electronic transactions.
- Decrease in repairs and maintenance from ₱24.7 million for the year ended 31 December 2020 to ₱19.1 million for the year ended 31 December 2021 due to cost-saving measures implemented.
- Decrease in transportation expense from ₱15.6 million for the year ended 31 December 2020 to ₱9.6 million for the year ended 31 December 2021 due to limited headcount to travel during pandemic and work from home arrangement.
- Decrease in dues and subscription from ₱21.4 million for the year ended 31 December 2020 to ₱11.8 million for the year ended 31 December 2021 due to cost-saving measures implemented.
- Decrease in advertising and promotions from ₱34.9 million for the year ended 31 December 2020 to ₱19.2 million for the year ended 31 December 2021 on account of cost-saving measures implemented and usage of online digital and social media platforms for marketing purposes.

Finance Cost

Finance cost increased from ₱377.8 million for the year ended 31 December 2020 to ₱393.7 million the year ended 31 December 2021. The increase was primarily attributable to the increase of ₱29.9 million in interest on loans payable and slightly offset by decrease of ₱13.0 million in interest expense from lease liability and ₱0.9 million in interest expense from retirement funds.

Finance Income

Finance income decreased from ₱2.3 million for the year ended 31 December 2020 to ₱1.2 million the year ended 31 December 2021. The increase was primarily attributable to the decrease in the interest income on deposits.

Support, Fees, Rentals and Other Revenues

Support, fees, rentals, and other revenues decreased by 11% from ₱397.8 million for the year ended 31 December 2020 to ₱355.9 million for the year ended 31 December 2021, primarily due to the decrease in vendor's support by 20% from ₱305.8 million to ₱246.0 million for the year

ended 31 December 2021.

Tax Expense

Tax expense decreased by 10% from ₱423.0 million for the year ended 31 December 2020 to ₱391.4 million for the year ended 31 December 2021 partially as higher current tax expense for the period was offset by lower deferred tax expense.

Net Profit

As a result of the foregoing, our net income increased by about 46% from ₱987.7 million for the year ended 31 December 2020 to ₱1,444.3 million for the year ended 31 December 2021.

For the 12-month of 2021, there was no seasonal aspect that had a material effect on the financial condition or results of operations of the Company. Neither were there any trends, events or uncertainties that have had or that are reasonably expected to have a material impact on the net sales or revenues or income from continuing operations. The Company is not aware of events that will cause a material change in the relationship between the costs and revenues.

There are no significant elements of income or loss that did not arise from the Company's continuing operations.

As of 31 December 2021 vs. 31 December 2020

Total assets as of 31 December 2021 were ₱25,812.7 million compared to ₱21,775.0 million as of 31 December 2020, or a 19% increase due to the following:

- Cash increased by 6% from ₱1,785.6 million as of 31 December 2020 to ₱1,885.5 million as of 31 December 2021 as cash used for investing was partially offset by cash generated from operating activities and proceeds from financing activities.

- Trade and other receivables decreased by 26% from ₱517.0 million as of 31 December 2020 to ₱383.8 million as of 31 December 2021 due mainly to collection of receivables during the period as well as due to the recognition of allowance for impairment loss.

- Inventories increased by 12% from ₱6,288.8 million as of 31 December 2020 to ₱7,055.6 million as of 31 December 2021 due primarily to the purchases for new stores, holiday buys and conversion of select concession merchandise to outright to increase GP margin and expansion of in-house brands.

- Property and equipment increased by 14% from ₱11,987.8 million as of 31 December 2020 to ₱13,605.5 million as of 31 December 2021 due primarily to leasehold improvements, acquisition of store equipment, furniture, fixture, and office equipment for new stores, software and computer equipment upgrades.

- Other assets increased by 141% from ₱1,195.8 million as of 31 December 2020 to ₱2,882.2 million as of 31 December 2021 due primarily to increase in advances to contractors, and advances to suppliers related to importation of new inventory orders and advance buys on account of international logistics and supply chain issues.

Total liabilities as of 31 December 2020 were ₱8,404.1 million compared to ₱11,186.7 million as of 31 December 2021, or a 33% increase. This was due to the following:

- Trade and other payables decreased by 7% from ₱1,315.8 million as of 31 December 2020 to ₱1,229.7 million as of 31 December 2021 due to payment for importation in relation to conversion of some concession merchandise to outright to increase GP margin as well as expansion of in-house brands.

- Loans payable including non-current portion increased by 142% from ₱2,042.9 million as of 31 December 2020 to ₱4,944.4 million as of 31 December 2021 due to additional loans secured during the period to fund primarily new stores, expansion of in-house brands, conversion of select concession merchandise to outright to increase GP margins, and software upgrades.

- Lease liability including non-current portion slightly declined by 0.5% from ₱4,565.5 million as of 31 December 2020 to ₱4,541.7 million as of 31 December 2021 due to lease payments made.

- Income tax payable decreased by 20% from ₱111.9 million as of December 31, 2020 to ₱89.7 million as of 31 December 2021 due to the new lower corporate income tax rate.

- Deferred tax liabilities increased by 4% from ₱299.6 million as of December 31, 2020 to ₱310.8 million as of 31 December 2021 due to the adjustments to temporary tax differences for the period.

- Retirement benefit obligation increased by 3% from ₱68.3 million as of 31 December 2020 to ₱70.4 million as of 31 December 2021 due to adjustment of provision for the retirement benefit.

Total stockholder's equity increased by 9% from ₱13,370.9 million as of 31 December 2020 to ₱14,626.0 million as of 31 December 2021 due to net income recorded for the period.

Considered as the top five key performance indicators of the Company as shown below:

Notes:

- (a) *Gross Profit Margin: This ratio is obtained by dividing the Gross Profit of the Company by its Revenues*
 (b) *Net Profit Margin: This ratio is obtained by dividing the Net Profit of the Company by its Revenues*
Because there are various calculation methods for the performance indicators above, the Company's presentation of such may not be comparable to similarly titled measures used by other companies.

Revenues increased for the year ended 31 December 2021 compared to year ended 31 December 2020 due to the same store sales growth of existing stores and the additional revenues generated from the new stores.

Gross Profit increased for the year ended 31 December 2021 compared to year ended 31 December 2020 due to economies of scale achieved resulting from higher purchases made during the period, increased revenue contribution of in-house brands, strategic pricing, and conversion of some concession merchandise to outright.

Net Profit and Net Profit Margin increased for the year ended 31 December 2021 compared to period year ended 31 December 2020 due to improved revenues, gross profit and reduced corporate income tax rate.

Material Changes to the Company's Balance Sheet as of 31 December 2021 compared to 31 December 2020 (increase/decrease of 5% or more)

Cash increased by 6% from ₱1,785.6 million as of 31 December 2020 to ₱1,885.5 million as of 31 December 2021 as cash used for investing was partially offset by cash generated from operating activities and proceeds from financing activities.

Trade and other receivables decreased by 26% from ₱517.0 million as of 31 December 2020 to ₱383.8 million as of 31 December 2021 due mainly to collection of receivables during the period as well as due to the recognition of allowance for impairment loss.

Inventories increased by 12% from ₱6,288.8 million as of 31 December 2020 to ₱7,055.6 million as of 31 December 2021 due primarily to the purchases for new stores, holiday buys and conversion of select concession merchandise to outright to increase GP margin and expansion of in-house brands.

Property and equipment increased by 14% from ₱11,987.8 million as of 31 December 2020 to ₱13,605.5 million as of 31 December 2021 due primarily to leasehold improvements, acquisition of store equipment, furniture, fixture, and office equipment for new stores, software and computer equipment upgrades.

Other assets increased by 141% from ₱1,195.8 million as of 31 December 2020 to ₱2,882.2 million as of 31 December 2021 due primarily to increase in advances to contractors, and advances to suppliers related to importation of new inventory orders and advance buys on account of international logistics and supply chain issues.

Trade and other payables decreased by 7% from ₱1,315.8 million as of 31 December 2020 to ₱1,229.7 million as of 31 December 2021 due to payment for importation in relation to conversion of some concession merchandise to outright to increase GP margin as well as expansion of in-house brands.

Loans payable including non-current portion increased by 142% from ₱2,042.9 million as of 31 December 2020 to ₱4,944.4 million as of 31 December 2021 due to additional loans secured during the period to fund primarily new stores, expansion of in-house brands, conversion of select concession merchandise to outright to increase GP margins, and software upgrades.

Income tax payable decreased by 20% from ₱111.9 million as of December 31, 2020 to ₱89.7 million as of 31 December 2021 due to the new lower corporate income tax rate.

Total stockholder's equity increased by 9% from ₱13,370.9 million as of 31 December 2020 to ₱14,626.0 million as of 31 December 2021 due to net income recorded for the period.

Material Changes to the Company's Statement of Income for the 12-month of 2021 compared to the 12-month of 2020 (increase/decrease of 5% or more)

Recorded sales increased by 15% to ₱14,324.9 million for the year ended 31 December 2021 from ₱12,414.1 million for the year ended 31 December 2020. This was mainly brought about by the same store sales growth of existing 50 stores as of 31 December 2020 as well as the revenues generated from 7 additional stores launched since then until 31 December 2021.

Cost of merchandise sold increased by 10% to ₱9,306.1 million for the year ended 31 December 2021 from the ₱8,486.1 million for the year ended 31 December 2020 corresponding to the increase in sales in existing stores and the sales contributed by the new stores added during the year.

Selling, general and administrative expenses increased by 24% to ₱3,156.4 million for the year ended 31 December 2021 from ₱2,539.7 million for the same period in 2020 due to increase in impairment loss, professional fees, commission expenses, miscellaneous expenses, rentals, depreciation and amortization, outside services, representation and entertainment, communication and utilities, and salaries, wages and employee benefits.

Finance income decreased by 49% from ₱2.3 million for the year ended 31 December 2020 to ₱1.2 million the year ended 31 December 2021 due primarily to the decrease in the interest income on deposits.

Support, fees, rentals, and other revenues decreased by 11% from ₱397.8 million for the year ended 31 December 2020 to ₱355.9 million for the year ended 31 December 2021 primarily due to the decrease in vendor's support by 20% from ₱305.8 million to ₱246.0 million for the year ended 31 December 2021.

Tax expense decreased by 10% from ₱423.0 million for the year ended 31 December 2020 to ₱391.4 million for the year ended 31 December 2021 partially as higher current tax expense for the period was offset by lower deferred tax expense.

Net income increased by 46% from ₱987.7 million for the year ended 31 December 2020 to ₱1,444.3 million for the year ended 31 December 2021 due to the foregoing movements in the income statement items.

There is no other material change in the Company's financial position (changes of 5% or more) and condition that will warrant a more detailed discussion.

COMMITMENTS AND CONTINGENCIES

There is no material commitment and contingency as of 31 December 2021 and as of 31 December 2020.

Year Ended December 31, 2020 compared to year ended December 31, 2019

Revenues

The company recorded revenues of ₱12,414 million for the year ended 31 December 2020, an increase of 2.93% from ₱12,060 million for the year ended 31 December 2019. This was mainly brought about by the same store sales growth of existing 45 stores as of 31 December 2019 as well as the revenues generated from 5 additional stores launched since then until 31 December 2020.

The following table shows the key operating performance indicators relevant to the revenues for the period ended 31 December 2019 and 2020:

	As of and for the period ended 31 December		Percentage Change
	2020	2019	
Number of stores	50	45	11.1%
Net Selling Area (in sqms)	331,590	296,772	11.7%
Net Sales (₱ millions)	12,414	12,060	2.9%
SSSG	3.5%	41.7%	-91.6%

Cost of Merchandise Sold

For the year ended 31 December 2020, cost of merchandise sold was at ₱8,486 million, an increase of 0.4% from the ₱8,452 million level for the same period in 2019 corresponding to the increase in sales in existing stores and the sales contributed by the 5 new stores added during the period.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased by 23% to ₱2,540 million for the year ended 31 December 2020 from ₱2,070 million for the same period in 2019, primarily due to the following:

- Increase in depreciation and amortization from ₱708 million for the year ended 31 December 2019 to ₱905 million for the year ended 31 December 2020 due to the increase in the number of stores.
- Increase in rentals from ₱182 million for the year ended 31 December 2019 to ₱343 million for the year ended 31 December 2020 primarily due to new stores.
- Increase in salaries, wages and employee benefits from ₱273 million for the year ended 31 December 2019 to ₱328 million for the year ended 31 December 2020 due to the additional manpower for new stores.
- Increase in outside services from ₱252 million for the year ended 31 December 2019 to ₱288 million for the year ended December 2020 due to the additional manpower for new stores. This was partially offset by the reduction of manpower due to closure of stores during the ECQ in the second quarter of 2020.
- Increase in communication and utilities from ₱220 million for the year ended 31 December 2019 to ₱271 million for the year ended 31 December 2020 attributable to the increase in the number of stores.
- Increase in merchant fee from ₱117 million for the year ended 31 December 2019 to ₱128 million for the year ended 31 December 2020 primarily due to increase in revenues on account of higher store network.
- Increase in taxes and licenses from ₱77 million for the year ended 31 December 2019 to ₱102 million for the year ended 31 December 2020 due to increase in number of stores as well as the increase in revenues.
- Decrease in advertising and promotions from ₱67 million for the year ended 31 December 2019 to ₱35 million for the year ended 31 December 2020 on account of cost-cutting measures implemented and usage of online digital platforms for marketing purposes.
- Decrease in office and store supplies from ₱33 million for the year ended 31 December 2019 to ₱29 million for the year ended 31 December 2020 due to cost-cutting measures implemented.
- Decrease in repairs and maintenance from ₱27 million for the year ended 31 December 2019 to ₱25 million for the year ended 31 December 2020 due to cost-cutting measures implemented.
- Increase in dues and subscription from ₱18 million for the year ended 31 December 2019 to ₱21 million for the year ended 31 December 2020 due to increase in the number of stores.

- Decrease in transportation expense from ₱35 million for the year ended 31 December 2019 to ₱16 million for the year ended 31 December 2020 due to reclassification of transportation expenses related to deliveries under delivery expenses.
- Increase in insurance from ₱7 million for the year ended 31 December 2019 to ₱9 million for the year ended 31 December 2020 due to the increase in the number of stores.
- Decrease in commission expense from ₱6 million for the year ended 31 December 2019 to ₱3 million for the year ended 31 December 2020 as most corporate sales during the period were generated by in-house sales teams.
- Decrease in professional fees from ₱12 million for the year ended 31 December 2019 to ₱7 million for the year ended 31 December 2020 on account of one-time professional fees incurred in 2019 in relation to the company's initial public offering.
- Decrease in impairment loss from ₱11 million for the year ended 31 December 2019 to ₱6 million for the year ended 31 December 2020 as provision for impairment is enough.
- Decrease in representation and entertainment from ₱11 million for the year ended 31 December 2019 to ₱6 million for the year ended 31 December 2020 due to cost-cutting measures, and minimal physical meetings this year.
- Increase in loss on lease modification from nil for the year ended 31 December 2019 to ₱1 million for the year ended 31 December 2020 due to pre-termination of lease on certain warehouse facilities during the year.

Finance Cost

Finance Cost decreased from ₱412 million for the year ended 31 December 2019 to ₱378 million for the year ended 31 December 2020. The decrease was primarily attributable to the decrease in interest expense during the period from lower balance of interest-bearing loans compared to same period in 2019.

Support, Fees, Rentals and Other Revenues

Support, fees, rentals, and other revenues increased by 13% from ₱352 million for the year ended 31 December 2019 to ₱398 million for the year ended 31 December 2020, primarily due to the increase in vendor's support by 25% from ₱244 million for the year ended 31 December 2019 to ₱306 million for the year ended 31 December 2020. This was brought about by higher volume-based incentives from suppliers based on our levels of sales, and opening support for newly opened stores.

Tax Expense

Tax expense decreased by 6% from ₱450 million for the year ended 31 December 2019 to ₱423 million for the year ended 31 December 2020 primarily due to a lower taxable base for the year.

Net Profit

As a result of the foregoing, our net income decreased by 6% from ₱1,050 million for the year ended 31 December 2019 to ₱988 million for the year ended 31 December 2020.

For the 12-month of 2020, there was no seasonal aspect that had a material effect on the financial condition or results of operations of the Company. Neither were there any trends, events or uncertainties that have had or that are reasonably expected to have a material impact on the net sales or revenues or income from continuing operations. The Company is not aware of events that will cause a material change in the relationship between the costs and revenues.

There are no significant elements of income or loss that did not arise from the Company's continuing operations.

As of 31 December 2020 vs. 31 December 2019

Total assets as of 31 December 2020 were ₱21,775 million compared to ₱19,685 million as of 31 December 2019, or about 11% increase due to the following:

- Cash decreased by 24% from ₱2,343 million as of 31 December 2019 to ₱1,786 million as of 31 December 2020 primarily due to payments made for the inventories and fit-out expenditures for new stores.
- Trade and other receivables increased by 87% from ₱277 million as of 31 December 2019 to ₱517 million as of 31 December 2020 due to increased revenues and timing of collection.
- Inventories increased by 21% from ₱5,209 million as of 31 December 2019 to ₱6,289 million as of 31 December 2020 due primarily to inventory of new stores, additional in- house brands and inventory buys for holidays sales.
- Property and equipment increased by 8% from ₱11,151 million as of 31 December 2019 to ₱11,988 million as of 31 December 2020 due primarily to acquisition of store equipment, furniture, fixture, office equipment and leasehold improvements for new stores.
- Other assets increased by 70% from ₱705 million as of 31 December 2019 to ₱1,196 million as of 31 December 2020 due primarily to down payment made to contractors for fit- out construction of planned 2021 stores.

Total liabilities as of 31 December 2020 were ₱8,404 million compared to ₱7,270 million as of 31 December 2019, or about 16% increase. This was due to the following:

- Trade and other payables decreased by 35% to ₱1,316 million as of 31 December 2020 from ₱2,024 million as of 31 December 2019 as the company settled its trade payables and contractor payables for new stores.
- Loans payable increased from nil as of 31 December 2019 to ₱2,043 million as of 31 December 2020 due to new loans taken during the period to augment working capital.
- Income tax payable increased by 58% from ₱71 million as of December 31, 2019 to ₱112 million as of 31 December 2020 due to tax payable for the period.
- Lease liability including non-current portion decreased from ₱4,942 million as of 31 December 2019 to ₱4,566 million as of 31 December 2020 due to amortization for the period.
- Deferred tax liabilities increased by 87% from ₱160 million as of December 31, 2019 to ₱300 million as of 31 December 2020 due to the adjustments to temporary tax differences for the period.
- Retirement benefit obligation decreased from ₱73 million as of 31 December 2019 to ₱68 million as of 31 December 2020 due to adjustment of provision for the retirement benefit.

Total stockholder's equity increased by 8% from ₱12,415 million as of 31 December 2019 to ₱13,371 million as of 31 December 2020 due to net income recorded for the period.

(b) *Net Profit Margin: This ratio is obtained by dividing the Net Profit of the Company by its Revenues*

Because there are various calculation methods for the performance indicators above, the Company's presentation of such may not be comparable to similarly titled measures used by other companies.

Revenues increased slightly for the year ended 31 December 2020 compared to year ended 31 December 2019 due to additional revenues from new stores.

Gross Profit increased for the year ended 31 December 2020 compared to year ended 31 December 2019 due to the increase in the number of stores. Gross profit margin improved as a result of improved sourcing and better supply terms due to increased store network.

Net Profit and Net Profit Margin decreased for the year ended 31 December 2020 compared to period year ended 31 December 2019 due to fixed operating expenses that were incurred during closure of stores in second quarter.

Material Changes to the Company's Balance Sheet as of 31 December 2020 compared to 31 December 2019 (increase/decrease of 5% or more)

Cash decreased by 24% from ₱2,343 million as of 31 December 2019 to ₱1,786 million as of 31 December 2020 primarily due to payments made for the inventories and fit-out expenditures for new stores.

Trade and other receivables increased by 87% from ₱277 million as of 31 December 2019 to ₱517 million as of 31 December 2020 due mainly to increased revenues and timing of collections.

Inventories increased by 21% from ₱5,209 million as of 31 December 2019 to ₱6,289 million as of 31 December 2020 due primarily to inventory of new stores, additional in-house brands and inventory buys for holidays sales.

Property and equipment increased by 8% from ₱11,151 million as of 31 December 2019 to ₱11,988 million as of 31 December 2020 due primarily to acquisition of store equipment, furniture, fixture, office equipment and leasehold improvements for new stores.

Other assets increased by 70% from ₱705 million as of 31 December 2019 to ₱1,196 million as of 31 December 2020 due primarily to down payments made to contractors for fit-out construction of planned 2021 stores.

Trade and other payables decreased by 35% to ₱1,316 million as of 31 December 2020 from ₱2,024 million as of 31 December 2019 as the company settled its trade payables and contractor payables for new stores.

Loans payable increased from nil as of 31 December 2019 to ₱2,043 million as of 31 December 2020 due to new loans taken during the period to augment working capital.

Income tax payable increased by 58% from ₱71 million as of 31 December 2019 to ₱112 million as of 31 December 2020 due to tax payable for the period.

Lease liability including non-current portion decreased from ₱4,942 million as of 31 December 2019 to ₱4,566 million as of 31 December 2020 due to amortization for the period.

Deferred tax liabilities increased by 87% from ₱160 million as of December 31, 2019 to ₱300 million as of 31 December 2020 due to the adjustments to temporary tax differences for the period.

Retirement benefit obligation decreased by 7% from ₱73 million as of 31 December 2019 to ₱68 million as of 31 December 2020 due to adjustment of provision for the retirement benefit.

Material Changes to the Company's Statement of income for the 12-month of 2020 compared to the 12-month of 2019 (increase/decrease of 5% or more)

Selling, general, and administrative expenses increased by 23% to ₱2,540 million for the year ended 31 December 2020 from ₱2,070 million for the year ended 31 December 2019, primarily due to the increase in depreciation and amortization, salaries, wages and employee benefits, outside services, variable lease payments, communication and utilities, merchant fees, taxes and licenses, dues and subscription, and insurance.

Finance Cost decreased by 8% from ₱412 million for the year ended 31 December 2019 to ₱378 million for the year ended 31 December 2020 primarily due to the decrease in interest expense during the period from lower balance of interest-bearing loans.

Support, fees, rentals, and other revenues increased by 13% from ₱352 million for the year ended 31 December 2019 to ₱398 million for the year ended 31 December 2020 primarily due to the increase in vendor's support.

Income tax expense decreased by 6% from ₱450 million for the year ended 31 December 2019 to ₱423 million for the year ended 31 December 2020 primarily due to a lower taxable base for the year.

As a result of the foregoing, our net income decreased by 6% from ₱1,050 million for the year ended 31 December 2019 to ₱988 million for the year ended 31 December 2020.

There is no other material change in the Company's financial position (changes of 5% or more) and condition that will warrant a more detailed discussion.

COMMITMENTS AND CONTINGENCIES

There is no material commitment and contingency as of 31 December 2020 and as of 31 December 2019.

RESULTS OF OPERATIONS

Year Ended December 31, 2019 compared to year ended December 31, 2018

Revenues

The company recorded revenues of ₱12,060.3 million for the year ended 31 December 2019, an increase of 67.7% from ₱7,192.2 million for the year ended 31 December 2018. This was mainly brought about by the same store sales growth of existing 23 stores as of 31 December 2018 as well as the revenues generated from 22 additional stores launched since then until 31 December 2019.

The following tables show the key operating performance indicators relevant to the revenues for the period ended 31 December 2018 and 2019:

	As of and for the period ended 31 December		Percentage Change
	2019	2018	
Number of stores	45	23	95.6%
Net Selling Area (in sqms)	296,772	167,578	77.1%
Net Sales (₱ millions)	12,060	7,192	67.7%
SSSG	41.7%	18.9%	120.6%

Costs of Goods Sold

For the year ended 31 December 2019, cost of goods sold was at ₱8,452.2 million, an increase of 67.0% from the ₱5,061.9 million level for the same period in 2018 corresponding to the increase in sales in existing stores and the sales contributed by the 22 new stores added during the period.

Operating Expenses

Operating expenses increased by 32.3% to ₱2,069.7 million for the year ended 31 December 2019 from ₱1,564.9 million for the same period in 2018, primarily due to the following:

- Increase in depreciation and amortization from ₱178.7 million for the year ended 31 December 2018 to ₱708.4 million for the year ended 31 December 2019 primarily as a result of the adoption of PFRS 16 and due to the increase in the number of stores.
- Increase in salaries and wages from ₱165.4 million for the year ended 31 December 2018 to ₱273.2 million for the year ended 31 December 2019 due to the additional manpower for new stores, and increased headcount for Finance, Merchandising and IT personnel. There were also contracted personnel previously recorded under Outside Services that were converted into organic employees.
- Increase in communication and utilities from ₱193.8 million for the year ended 31 December 2018 to ₱220.3 million for the year ended 31 December 2019 attributable to the increase in the number of stores.
- Decrease in rentals from ₱450.1 million for the year ended 31 December 2018 to ₱181.1 million for the year ended 31 December 2019 primarily due to adoption of PFRS 16, net of increase due to new stores.
- Increase in merchant fees from ₱72.0 million for the year ended 31 December 2018 to ₱116.6 million for the year ended 31 December 2019 due to increase in revenues.
- Increase in taxes and licenses from ₱50.6 million for the year ended 31 December 2018 to ₱76.6 million for the year ended 31 December 2019 due to increase in number of stores as well as the increase in revenues.
- Increase in commission expense from ₱4.6 million for the year ended 31 December 2018 to ₱5.9 million for the year ended 31 December 2019 due to increase in corporate sales.
- Increase in transportation expense from ₱25.3 million for the year ended 31 December 2018 to ₱35.4 million for the year ended 31 December 2019 due to increase in delivery expenses on account of new stores.
- Increase in advertising and promotions from ₱48.9 million for the year ended 31 December 2018 to ₱67.0 million for the year ended 31 December 2019 on account of marketing campaigns for the new stores.
- Increase in professional fees from ₱4.1 million for the year ended 31 December 2018 to ₱12.2 million for the year ended 31 December 2019 on account of audit and market research fees incurred in relation to the company's initial public offering.
- Increase in office and store supplies from ₱25.4 million for the year ended 31 December 2018 to ₱32.8 million for the year ended 31 December 2019 due to increase in number of stores and increased revenues.
- Decrease in dues and subscription from ₱33.5 million for the year ended 31 December 2018 to ₱17.5 million for the year ended 31 December 2019 due to one-time IT systems payment made in 2018.
- Increase in repairs and maintenance from ₱24.9 million for the year ended 31 December 2018 to ₱27.3 million for the year ended 31 December 2019 due to the increase in the

number of stores.

- Increase in representation and entertainment from ₱7.9 million for the year ended 31 December 2018 to ₱10.9 million for the year ended 31 December 2019 partially due to one-time post-initial public offering activities, year-end suppliers and employee thanksgiving parties.

Finance Cost

Finance Cost increased from ₱46.4 million for the year ended 31 December 2018 to ₱412.1 million for the year ended 31 December 2019. The increase was primarily attributable to the adoption of PFRS 16, the availment of short-term and long-term interest-bearing debt of the Company for the year to finance store expansion, and recognition of retirement benefit obligation.

Other Income

Other income increased by 69.3% from ₱209.6 million for the year ended 31 December 2018 to ₱352.3 million for the year ended 31 December 2019, primarily due to the increase in vendor's support and marketing fees from ₱171.8 million for the year ended 31 December 2018 to ₱281.1 million for the year ended 31 December 2019. This was brought about by higher volume-based incentives from suppliers based on our levels of sales, and opening support for newly opened stores.

Provision for Income Tax

Provision for income tax increased by 105.3% from ₱218.9 million for the year ended 31 December 2018 to ₱449.5 million for the year ended 31 December 2019 primarily due to a higher taxable base for the year.

Net Profit

As a result of the foregoing, our net income increased by 105.3% from ₱511.4 million for the year ended 31 December 2018 to ₱1,049.8 million for the year ended 31 December 2019.

For the 12-month of 2019, there was no seasonal aspect that had a material effect on the financial condition or results of operations of the Company. Neither were there any trends, events or uncertainties that have had or that are reasonably expected to have a material impact on the net sales or revenues or income from continuing operations. The Company is not aware of events that will cause a material change in the relationship between the costs and revenues.

There are no significant elements of income or loss that did not arise from the Company's continuing operations.

Material Changes to the Company's Statement of income for the 12-month of 2019 compared to the 12-month of 2018 (increase/decrease of 5% or more)

Revenues increased by 67.7% to ₱12,060.3 million for the year ended 31 December 2019 from ₱7,192.2 million for the year ended 31 December 2018. This was mainly brought about by the same store sales growth of existing 23 stores as of 31 December 2018 as well as the revenues generated from 22 additional stores launched since then until 31 December 2019

Cost of goods sold increased by 67.0% to ₱8,452.2 million for the year ended 31 December 2019 from the ₱5,061.9 million level for the same period in 2018, corresponding to the increase in sales in existing stores and the sales contributed by the new stores added during the period.

Finance Cost increased from ₱46.4 million for the year ended 31 December 2018 to ₱412.1 million for the year ended 31 December 2019. The increase was primarily attributable to the adoption of PFRS 16, the availment of short-term and long-term interest-bearing debt of the Company for the year to finance store expansion, and recognition of retirement benefit obligation.

Other income increased by 69.3% from ₱209.6 million for the year ended 31 December 2018 to ₱352.3 million for the year ended 31 December 2019. This was brought about by higher volume-based incentives from suppliers based on our levels of sales, and opening support for newly opened stores.

Provision for income tax increased by 105.3% from ₱218.9 million for the year ended 31 December 2018 to ₱449.5 million for the year ended 31 December 2019 primarily due to a higher taxable base for the year.

As a result of the foregoing, our net income increased by 105.3% from ₱511.4 million for the year ended 31 December 2018 to ₱1,049.8 million for the year ended 31 December 2019.

There is no other material change in the Company's financial position (changes of 5% or more) and condition that will warrant a more detailed discussion. Further, there is no material event and uncertainty known to management that would impact or change reported financial information and condition on the Company.

COMMITMENTS AND CONTINGENCIES

There is no material commitment and contingency as of 31 December 2019 and as of 31 December 2018.

Dividend Policy

The Registrant's Board is authorized to declare dividends. A cash dividend declaration does not

require any further approval from the Registrant's shareholders. A stock dividend declaration requires the further approval of shareholders representing not less than two-thirds of the Registrant's outstanding capital stock. Dividends may be declared only from unrestricted retained earnings.

In relation to foreign shareholders, dividends payable may not be remitted using foreign exchange sourced from the Philippine banking system unless the investment was first registered with the Banko Sentral ng Pilipinas.

The Registrant is allowed under Philippine laws to declare property and stock dividends, subject to certain requirement.

Record Date

Pursuant to existing Philippine SEC rules, cash dividends declared by a company must have a record date not less than 10 nor more than 30 days from the date the cash dividends are declared. With respect to stock dividends, the record date is to be not less than 10 or more than 30 days from the date of shareholder approval, provided however, that the set record date is not to be less than 10 trading days from receipt by the PSE of the notice of declaration of stock dividend. In the event that a stock dividend is declared in connection with an increase in authorized capital stock, the corresponding record date is to be fixed by the Philippine SEC.

VI. COMPLIANCE WITH LEADING PRACTICE ON CORPORATE GOVERNANCE

The Company's Board has adopted a Revised Manual on Corporate Governance. The Company's Revised Manual on Corporate Governance describes the terms and conditions by which the Company intends to conduct sound corporate governance practices that are consistent with the relevant laws and regulations of the Republic of the Philippines, and which seek to enhance business transparency and build shareholder value.

Ultimate responsibility and oversight of the Company's adherence to superior corporate governance practices rests with the Board of Directors. As a policy matter, the Board will hold monthly meetings, at which any number of relevant corporate governance issues may be raised for discussion.

Practical oversight of the Company's corporate governance standards is exercised through the Board's Corporate Governance Committee.

The Company is committed to building a solid reputation for sound corporate governance practices, including a clear understanding by its Directors of the Company's strategic objectives, structures to ensure that such objectives are realized, systems to ensure the effective management of risks and the systems to ensure the Company's obligations are identified and discharged in all aspects of its business. Each January, the Company will issue a certification to the Philippines Securities and Exchange Commission and the Philippine Stock Exchange that it has fulfilled its corporate governance obligations.

As of the date of this report, there are no known material deviations from the Company's Manual of Corporate governance. The Company is taking further steps to enhance adherence to principles and practices of good corporate governance

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of AllHome Corp. (the Company), which comprise the statements of financial position as of December 31, 2021 and 2020, and statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended December 31, 2021, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and its financial performance and its cash flows for each of the three years in the period ended December 31, 2021 in accordance with Philippine Financial Reporting Standards (PFRS).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audits of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

(a) Revenue Recognition

Description of the Matter

Revenue is one of the key performance measures used to assess the Company's business performance. Revenue is recognized when the control over the goods has been transferred at a point in time to the customer, i.e., generally when the customer has acknowledged delivery of goods. Revenue from sale of merchandise is generated through direct sales to customers. For the year ended December 31, 2021, total revenues amounted to P14,324.9 million.

In our view, revenue recognition is significant to our audit because of the inherent risk of material misstatement involved and the materiality of the amount of recorded revenues which impact the Company's profitability.

The Company's disclosures about its revenues and the related trade receivables, nontrade receivables and accrued interest receivables, and revenue recognition policy are included in Notes 2, 3, 4, 6 and 13.

How the Matter was Addressed in the Audit

Our audit procedures to address the risk of material misstatement relating to revenue recognition, which was considered to be a significant risk, included:

- obtaining an understanding of the Company's revenue transactions by reviewing revenue arrangements and revenue transaction processes;
- evaluating appropriateness of the Company's revenue recognition policy in accordance with PFRS 15, *Revenue from Contracts with Customers*;
- testing the information technology (IT) general controls and application controls over the automated system from origination to recording of sales;
- testing the design and operating effectiveness of internal controls related to the Company's sale and receipts processes, which include inquiry and observation, and test, on sampling basis, of revenue transactions during the year;
- performing sales cut-off test, including, among others, examining sales transactions near period end, and analysing and reviewing sales returns, credit memos and other receivable adjustments subsequent to period end to determine whether revenues are appropriately recognized in the proper period;

- confirming receivables, on sample basis, using positive confirmations, performing alternative procedures for non-responding customers, reporting unresolved difference to appropriate client personnel and projecting errors to the population, to ascertain the testing precision achieved, which further validates the accuracy of revenue recognized by the Company; and,
- performing detailed analysis of revenue segments and related key ratios such as, but not limited to, current year's components of revenues (e.g., by customer and by location) as a percentage of total revenues and analysis of current and prior year's monthly revenue trend.

(b) Existence and Valuation of Inventories

Description of the Matter

The Company's total inventories amounting to P7,055.6 million as of December 31, 2021 represents 27% of total assets of the Company. Inventories are valued at the lower of cost and net realizable value. Cost is determined using the moving average method. Management uses estimates in assessing whether inventories are valued at the lower of cost and net realizable value. Moreover, the Company's inventories are considered voluminous and majority of these are kept in the Company's stores and warehouses. Relative to these, we determined that existence and valuation of inventories are key audit matters.

The Company's disclosures about inventories and the related inventory valuation policies are included in Notes 2, 3 and 7.

How the Matter was Addressed in the Audit

Our audit procedures to address the risk of material misstatement relating to inventory existence and valuation, which was considered to be a significant risk included, among others, the following:

On inventory existence:

- testing the IT general controls and application controls over the automated system related to inventory receipts, shipment and adjustments;
- testing the design and operating effectiveness of internal controls related to the Company's inventory count processes;
- conducting physical inventory count observation in selected stores and warehouses, including, among others, touring the facility before and after the inventory count observation to gain an understanding of the location and condition of inventories prior to the count and after the count is concluded; determining that all sample inventory items were counted and no items were counted twice; obtaining relevant cut-off information and copy of count control documents; examining sample inventory items to test count against inventory records; clearing exceptions, if any, with appropriate personnel; and, projecting errors to the population; and,
- performing detailed analysis of inventory-related ratios such as, but not limited to, inventory turnover and current year's components of inventories as a percentage of total inventories.

On inventory valuation:

- determining the method of inventory costing and evaluating appropriateness and consistency of application of the valuation of inventories at lower of cost and net realizable value;
- testing the IT general controls and application controls over the automated system related to updating and changing of prices;
- performing test of design and implementation of key controls on inventory costing;
- performing test on inventory costing of selected inventory items by recomputing unit cost and comparing to unit cost per books, examining supplier invoices and other documents supporting movements affecting the moving average unit cost and reporting unresolved difference, if any, to appropriate personnel; and,
- determining whether inventory is stated at the lower of cost and net realizable value by verifying latest selling price, reviewing estimated cost to sell of sample inventory items and comparing the net selling price to the unit cost per books and reporting unresolved differences, if any, to appropriate personnel.

Other Information

Management is responsible for the other information. The other information comprises the information included in the Company's Securities and Exchange Commission (SEC) Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2021 but does not include the financial statements and our auditors' report thereon. The SEC Form 20-IS, SEC Form 17-A and Annual Report for the year ended December 31, 2021 are expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information for the year ended December 31, 2021 required by the Bureau of Internal Revenue as disclosed in Note 26 to the financial statements is presented for purposes of additional analysis and is not a required part of the basic financial statements prepared in accordance with PFRS. Such supplementary information is the responsibility of management. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The engagement partner on the audits resulting in this independent auditors' report is Nelson J. Dinio.

1.2 Approval of Financial Statements

The financial statements of the Company as of and for the year ended December 31, 2021 (including the comparative financial statements as of December 31, 2020 and for the years ended December 31, 2020 and 2019) were authorized for issue by the Company's Board of Directors (BOD) on March 30, 2022. The Company's owners and BOD have the power to amend the financial statements after issuance.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these financial statements are summarized in the succeeding pages. The policies have been consistently applied to all the periods presented, unless otherwise stated.

2.1 Basis of Preparation of Financial Statements

(a) Statement of Compliance with Philippine Financial Reporting Standards

The financial statements of the Company have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). PFRS are adopted by the Financial Reporting Standards Council (FRSC) from the pronouncements issued by the International Accounting Standards Board, and approved by the Philippine Board of Accountancy.

The financial statements have been prepared using the measurement bases specified by PFRS for each type of asset, liability, income and expense. The measurement bases are more fully described in the accounting policies that follow.

(b) Presentation of Financial Statements

The financial statements are presented in accordance with Philippine Accounting Standard (PAS) 1, *Presentation of Financial Statements*. The Company presents all items of income, expense and other comprehensive income or losses in a single statement of comprehensive income.

The Company presents a third statement of financial position as of the beginning of the preceding period when it applies an accounting policy retrospectively, or makes a retrospective restatement or reclassification of items that has a material effect on the information in the statement of financial position at the beginning of the preceding period. The related notes to the third statement of financial position are not required to be disclosed.

(c) Functional and Presentation Currency

The financial statements are presented in Philippine peso (P), the Company's functional and presentation currency, and all values represent absolute amounts except when otherwise indicated.

Items included in the financial statements of the Company are measured using its functional currency. Functional currency is the currency of the primary economic environment in which the Company operates.

2.2 Adoption of New and Amended PFRS

(a) Effective in 2021 that are Relevant to the Company

The Company adopted for the first time the following amendments to existing standards, which are mandatorily effective for annual periods beginning on or after January 1, 2021:

PFRS 9, PFRS 7, and

PFRS 16 (Amendments) : Interest Rate Benchmark Reform Phase 2
Financial Instruments, Financial
Instruments: Disclosure, Leases

PFRS 16 (Amendments) : Leases – COVID-19-Related Rent Concessions
beyond June 30, 2021

Discussed below are the relevant information about these amendments.

- (i) PFRS 9 (Amendments), *Financial Instruments*, PFRS 7 (Amendments), *Financial Instruments: Disclosures*, and PFRS 16 (Amendments), *Leases – Interest Rate Benchmark Reform Phase 2*. The amendments address issues that may affect financial reporting during the interest rate benchmark reform, including the effect of changes to contractual cash flows or hedging relationships resulting from the replacement of the London Interbank Offered Rate (LIBOR) with alternative benchmark rates. The Phase 2 amendments have no impact to the Company's financial statements as the Company did not have any financial instruments subject to LIBOR.
- (ii) PFRS 16, *Leases – COVID-19-Related Rent Concessions beyond June 30, 2021*. The amendment extends for one year the use of practical expedient of not assessing whether rent concessions reducing payments up until June 30, 2022 occurring as a direct consequence of the COVID-19 pandemic are lease modifications and instead to account for those rent concessions as if they are not lease modifications. The application of these amendments had no significant impact to the Company's financial statements as the Company did not receive any rent concession from its lessors in 2021.

(b) *Effective Subsequent to 2021 but not Adopted Early*

There are amendments to existing standards effective for annual periods subsequent to 2021, which are adopted by the FRSC. Management will adopt the following relevant pronouncements in accordance with their transitional provisions; and, unless otherwise stated, none of these are expected to have significant impact on the Company's financial statements:

- (i) PAS 16 (Amendments), *Property, Plant and Equipment – Proceeds Before Intended Use* (effective from January 1, 2022)
- (ii) PAS 37 (Amendments), *Provisions, Contingent Liabilities and Contingent Assets – Onerous Contracts – Cost of Fulfilling a Contract* (effective from January 1, 2022)
- (iii) Annual Improvements to PFRS 2018-2020 Cycle. Among the improvements, the following amendments, which are effective from January 1, 2022, are relevant to the Company:
 - PFRS 9 (Amendments), *Financial Instruments – Fees in the '10 per cent' Test for Derecognition of Liabilities*
 - Illustrative Examples Accompanying PFRS 16, *Leases – Lease Incentives*
- (iv) PAS 1 (Amendments), *Presentation of Financial Statements – Classification of Liabilities as Current or Non-current* (effective from January 1, 2023)
- (v) PAS 1 (Amendments), *Presentation of Financial Statements – Disclosure of Accounting Policies* (effective from January 1, 2023)
- (vi) PAS 8 (Amendments), *Accounting Estimates – Definition of Accounting Estimates* (effective from January 1, 2023)

- (vii) PAS 12 (Amendments), *Income Taxes – Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction* (effective from January 1, 2023)

2.3 Financial Instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the financial instrument.

(a) Financial Assets

For purposes of classifying financial assets, an instrument is considered as an equity instrument if it is non-derivative and meets the definition of equity for the issuer in accordance with the criteria of PAS 32, *Financial Instruments: Presentation*. All other non-derivative financial instruments are treated as debt instruments.

(i) Classification and Measurement of Financial Assets

The classification and measurement of financial assets is driven by the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. Currently, the only classification that applies to the Company is financial assets at amortized cost.

Financial assets are measured at amortized cost if both of the following conditions are met:

- the asset is held within the Company's business model whose objective is to hold financial assets in order to collect contractual cash flows ("hold to collect"); and,
- the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Except for trade receivables that do not contain a significant financing component and are measured at the transaction price in accordance with PFRS 15, *Revenue from Contracts with Customers*, all financial assets meeting these criteria are measured initially at fair value plus transaction costs. These are subsequently measured at amortized cost using the effective interest method, less allowance for expected credit loss (ECL).

The Company's financial assets at amortized cost are presented in the statement of financial position as Cash and Cash Equivalents, Trade and Other Receivables and Security deposits presented as part of Other Non-current Assets.

Financial assets measured at amortized cost are included in current assets, except for those with maturities greater than 12 months after the end of reporting period, which are classified as noncurrent assets.

For purpose of cash flows reporting and presentation, cash and cash equivalents include cash on hand, demand deposits and short-term, highly liquid investments with original maturities of three months or less, readily convertible to known amounts of cash and which are subject to insignificant risk of change in value.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of the financial assets except for those that are subsequently identified as credit-impaired. For credit-impaired financial assets at amortized cost, the effective interest rate is applied to the net carrying amount of the financial assets (after deduction of the loss allowance). The interest earned is recognized as Finance Income under Finance Income (Costs) – Net section of the statement of comprehensive income.

(ii) *Impairment of Financial Assets*

At the end of the reporting period, the Company assesses and recognizes allowance for ECL on its financial assets measured at amortized cost. The measurement involves consideration of broader range of information that is available without undue cost or effort at the reporting date about past events, current conditions, and reasonable and supportable forecasts of future economic conditions (i.e., forward-looking information) that may affect the collectability of the future cash flows of the financial assets. Measurement of the ECL is determined by a probability-weighted estimate of credit losses over the expected life of the financial instruments evaluated based on a range of possible outcome.

The Company applies the simplified approach in measuring ECL, which uses a lifetime expected loss allowance for all trade receivables and security deposits. These are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial assets. To calculate the ECL, the Company uses its historical experience, external indicators and forward-looking information to calculate the ECL using a provision matrix. The Company also assesses impairment of trade receivables and security deposits on a collective basis as they possess shared credit risk characteristics and have been grouped based on the days past due [see Note 22.2(b) and Note 22.2(c)].

The key elements used in the calculation of ECL are as follows:

- *Probability of default* – It is an estimate of likelihood of a counterparty defaulting at its financial obligation over a given time horizon, either over the next 12 months or the remaining lifetime of the obligation.
- *Loss given default* – It is an estimate of loss arising in case where a default occurs at a given time. It is based on the difference between the contractual cash flows of a financial instrument due from a counterparty and those that the Company would expect to receive, including the realization of any collateral or effect of any credit enhancement.
- *Exposure at default* – It represents the gross carrying amount of the financial instruments in the event of default which pertains to its amortized cost.

The amount of ECL required to be recognized during the year, if any, is presented as Impairment loss on under General and Administrative Expenses in the statement of comprehensive income. Reversal of loss allowance, if applicable, is recognized as part of Finance Income under Finance Income (Costs) – Net section of the statement of comprehensive income.

(iii) *Derecognition of Financial Assets*

The financial assets (or where applicable, a part of a financial asset or part of a group of financial assets) are derecognized when the contractual rights to receive cash flows from the financial instruments expire, or when the financial assets and all substantial risks and rewards of ownership have been transferred to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

(b) *Financial Liabilities*

Financial liabilities, which include trade and other payables (except tax-related liabilities) and loans payable, are recognized initially at their fair values and subsequently measured at amortized cost, using effective interest method for maturities beyond one year, less settlement payments.

All interest-related charges, except for capitalized borrowing costs, incurred on a financial liability are recognized as Finance Costs under Finance Income (Costs) – Net section of the statement of comprehensive income.

Loans payable are raised for support of short-term and long-term funding of operations and are recognized initially at the transaction price. Loans payable are subsequently measured at amortized cost. Finance charges, including direct issue costs, are charged to profit or loss, except for capitalized borrowing costs, on an accrual basis using the effective interest method and are added to the carrying amount of the instrument to the extent that these are not settled in the period in which they arise.

Dividend distributions to shareholders are recognized as financial liabilities upon declaration by the Company.

Financial liabilities are classified as current liabilities if payment is due to be settled within one year or less after the end of the reporting period (or in the normal operating cycle of the business, if longer), or the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period. Otherwise, these are presented as non-current liabilities.

Financial liabilities are derecognized from the statement of financial position only when the obligations are extinguished either through discharge, cancellation or expiration. The difference between the carrying amount of the financial liability derecognized and the consideration paid or payable is recognized in profit or loss.

(c) *Offsetting of Financial Instruments*

Financial assets and financial liabilities are offset and the resulting net amount, considered as a single financial asset or financial liability, is reported in the statement of financial position when the Company currently has legally enforceable right to set-off the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously. The right of set-off must be available at the end of the reporting period, that is, it is not contingent on future event. It must also be enforceable in the normal course of business, in the event of default, and in the event of insolvency or bankruptcy; and, must be legally enforceable for both entity and all counterparties to the financial instruments.

2.4 Merchandise Inventories

Merchandise inventories are valued at the lower of cost and net realizable value. Cost is determined using the moving average method. The cost of merchandise inventories includes all costs directly attributable to acquisition such as the purchase price, including transport and handling costs, and other incidental expenses incurred in bringing the inventories to their present location and condition.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale.

At the end of each reporting period, merchandise inventories are assessed for impairment, i.e., the carrying amount is not fully recoverable due to damage, obsolescence or declining selling prices.

2.5 Other Assets

Other current assets, which are non-financial assets, pertain to other resources controlled by the Company as a result of past events. They are recognized at cost in the financial statements when it is probable that the future economic benefits will flow to the Company and the asset has a cost or value that can be measured reliably. These are subsequently charged to profit or loss as utilized or reclassified to another asset account, if capitalizable.

Other recognized assets of similar nature, where future economic benefits are expected to flow to the Company beyond one year after the end of reporting period or in the normal operating cycle of the business, if longer, are classified as non-current assets.

Advances for purchases that will be applied as payment for future purchase of merchandise inventories are classified and presented under the Other Current Assets account in the statement of financial position. On the other hand, advances to suppliers that will be applied as payment for future acquisition or construction of property and equipment are classified and presented under the Other Non-current Assets account in the statement of financial position. The classification and presentation is based on the eventual usage or realization of the asset to which it was advanced for.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (see Note 2.11).

2.6 Property and Equipment

Property and equipment are initially recognized at cost and subsequently carried at cost less accumulated depreciation, amortization and any impairment in value.

The cost of an asset comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, major improvements and renewals are capitalized; expenditures for repairs and maintenance are charged to expense as incurred.

Depreciation is computed on a straight-line basis over the estimated useful lives of the assets as follows:

Store equipment	15 to 18 years
Right-of-use assets – store outlets	7 to 16 years
Furniture, fixtures and office equipment	5 to 15 years
Right-of-use assets – warehouse	2 to 15 years
Transportation equipment	8 to 10 years

Leasehold improvements are amortized over their estimated useful lives of 18 years or the lease term, whichever is shorter.

Right-of-use assets are depreciated on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use assets or the end of the lease term (see Note 2.10).

Construction-in-progress represents properties under construction and is stated at cost. This includes cost of construction, applicable borrowing costs and other direct costs (see Note 2.13). The account is not depreciated until such time that the assets are completed and available-for-use.

Fully depreciated and fully amortized assets are retained in the accounts until these are no longer in use and no further charge for depreciation and amortization is made in respect of those assets.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (see Note 2.11).

The residual values, estimated useful lives and method of depreciation and amortization of property and equipment are reviewed, and adjusted if appropriate, at the end of each reporting period.

If there is an indication that there has been a significant change in the useful life, residual value of an asset, or method of depreciation or amortization, the depreciation or amortization of that asset is revised prospectively to reflect the new expectations.

An item of property and equipment including the related accumulated depreciation and amortization, and impairment losses, if any, is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in profit or loss in the period the item is derecognized.

2.7 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Company's BOD – its chief operating decision-maker. The Company's BOD is responsible for assessing performance of the operating segments.

In identifying its operating segments, management generally follows the Company's business line as disclosed in Note 4.

The measurement policies that the Company uses for segment reporting under PFRS 8, *Operating Segments*, are the same as those used in its financial statements.

In addition, corporate assets which are not directly attributable to the business activities of any operating segment are not allocated to a segment.

There have been no changes from prior periods in the measurement methods used to determine reported segment profit or loss.

2.8 Provisions and Contingencies

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive obligation that has resulted from past events.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the end of the reporting period, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. When time value of money is material, long-term provisions are discounted to their present values using a pretax rate that reflects market assessments and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

In those cases where the possible outflow of economic resource as a result of present obligations is considered improbable or remote, or the amount to be provided for cannot be measured reliably, no liability is recognized in the financial statements. Similarly, possible inflows of economic benefits to the Company that do not yet meet the recognition criteria of an asset are considered contingent assets; hence, are not recognized in the financial statements. On the other hand, any reimbursement that the Company can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset not exceeding the amount of the related provision.

2.9 Revenue and Expense Recognition

Revenue arises mainly from the sale of merchandise.

To determine whether to recognize revenue, the Company follows a five-step process:

- (1) identifying the contract with a customer;
- (2) identifying the performance obligation;
- (3) determining the transaction price;
- (4) allocating the transaction price to the performance obligations; and,
- (5) recognizing revenue when/as performance obligations are satisfied.

For Step 1 to be achieved, the following five criteria must be present:

- (i) the parties to the contract have approved the contract either in writing, orally or in accordance with other customary business practices;
- (ii) each party's rights regarding the goods or services to be transferred or performed can be identified;
- (iii) the payment terms for the goods or services to be transferred or performed can be identified;
- (iv) the contract has commercial substance (i.e., the risk, timing or amount of the future cash flows is expected to change as a result of the contract); and,
- (v) collection of the consideration in exchange of the goods and services is probable.

Revenue is recognized only when (or as) the Company satisfies a performance obligation by transferring control of the promised goods or services to a customer. The transfer of control can occur over time or at a point in time.

A performance obligation is satisfied at a point in time unless it meets one of the following criteria, in which case it is satisfied over time:

- (i) the customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs;
- (ii) the Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; and,
- (iii) the Company's performance does not create an asset with an alternative use to the Company and the entity has an enforceable right to payment for performance completed to date.

The Company enters into transactions involving the sale and delivery of merchandise representing construction materials, home improvement, furnishings and décor products. In addition, the Company also recognizes vendors' support and marketing fees in relation to the vendors' participation in the marketing/promotional activities of the Company. The significant judgments used in determining the transaction price and the amounts allocated to the performance obligations are disclosed in Note 3.1(c). The transaction price allocated to performance obligations satisfied at a point in time is recognized as revenue when control of the goods transfers to the customer. As a matter of accounting policy, when applicable, if the performance obligation is satisfied over time, the transaction price allocated to that performance obligation is recognized as revenue as the performance obligation is satisfied.

In addition, the following specific recognition criteria must also be met before revenue is recognized:

- (a) *Sale of merchandise* – Revenue is recognized when the control transfers at a point in time with the customer, i.e., generally when the customer purchased the merchandise. For individual customers, payment of the transaction price is due immediately at the point the customer purchases the merchandise. On the other hand, invoices for merchandise purchased by corporate customers are due based on agreed terms and are provided upon receipt of merchandise by the customer. For e-commerce sales, revenue is recognized when control of goods has transferred to the customer, being at the point of the goods are delivered to the customer. Delivery occurs when the goods have been shipped to the customer's specific location.
- (b) *Vendors' support and marketing fees* – Vendors' support and marketing fees arise from the vendors' participation in the marketing/promotional activities of the Company such as product exhibits, launch of new stores support and product features in various media platforms. The duration of contracts are generally short-term, and the related revenue are recognized over time as the performance of the contractually agreed tasks are rendered.
- (c) *Delivery fees* – Delivery fees are charged for the transportation of merchandise from the Company's stores to a certain destination as agreed with the customer. Delivery fees are recognized over time as the services are provided. Payment of delivery fees is due immediately, i.e., upon the customer's purchase of merchandise.
- (d) *Miscellaneous* – Miscellaneous income comprise of support received from supplier for store opening and clearance sales. Miscellaneous is recognized at a point in time when support are received from supplier.

As applicable, if the Company is required to refund the related purchase price for returned goods, it recognizes an outflow of cash or a reduction in trade receivables with a corresponding adjustment on the amount of revenue recognized during the reporting period. Also, the Company recognizes a right of return asset on the goods to be recovered from the customers with a corresponding adjustment to Cost of Merchandise Sold. However, there were no contracts containing significant right of return arrangements which remain outstanding during the reporting periods since the Company's policy with customers for most of its sale of merchandise pertain to outright return which are recognized immediately. Relative to this outright return arrangement, the amount of revenue are also immediately adjusted as of the end of the reporting periods.

Under the Company's standard contract terms for sale to customers, only goods found to be shoddy or defective shall be honored for return. The right of return is not a separate performance obligation and is not considered in establishing the transaction price since right of return entitles the customer to exchange the product bought for another product of the same type, quality, condition and price.

The Company operates a customer loyalty incentive programme where individual customers accumulate points for purchases made which entitle them for award credits on future purchases. The Company allocates a portion of the consideration received to loyalty points. This allocation is based on the relative stand-alone selling prices. The stand-alone selling price is estimated based on the equivalent value given when the points are redeemed by the customer and the likelihood of redemption, as evidenced by the Company's historical experience. The significant judgments used in determining the transaction price and the amounts allocated to the performance obligations are disclosed in Note 3.1(c).

A liability is recognized for revenue relating to the loyalty points at the time of the initial sales transactions. Revenue from loyalty points are recognized when the points are redeemed by the customer. Revenue from loyalty points that are not expected to be redeemed by the customer is recognized in proportion to the pattern of rights exercised by customers.

In obtaining customer contracts, the Company incurs incremental costs. As the expected amortization period of these costs, if capitalized, would be less than one year, the Company uses the practical expedient in PFRS 15 and expenses such costs as incurred.

The Company also incurs costs in fulfilling contracts with customers. These costs are divided into: (i) costs that give rise to an asset; and, (ii) costs that are expensed as incurred. When determining the appropriate accounting treatment for such costs, the Company first considers any other applicable standards. If other standards preclude capitalization of a particular cost, then an asset is not recognized under PFRS 15. If other standards are not applicable to contract fulfilment costs, the Company applies the following criteria, which, if met, result in capitalization:

- (i) the costs directly relate to a contract or to a specifically identifiable anticipated contract;
- (ii) the costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and,
- (iii) the costs are expected to be recovered.

Costs and expenses are recognized in profit or loss upon utilization of the goods or services or at the date they are incurred. All finance costs are reported in profit or loss on an accrual basis, except capitalized borrowing costs, which are included as part of the cost of any related qualifying assets (see Note 2.13).

2.10 Leases

The Company accounts for its leases as follows:

(a) Company as Lessee

For any new contracts entered into, the Company considers whether a contract is, or contains, a lease. A lease is defined as a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration.

To apply this definition, the Company assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Company;
- the Company has the right to obtain substantially all of the economic benefits from the use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract; and,
- the Company has the right to direct the use of the identified asset throughout the period of use. The Company assesses whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

At lease commencement date, the Company recognizes a right-of-use asset and a lease liability in the statement of financial position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received). Subsequently, the Company depreciates the right-of-use asset on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term (see Note 2.6). The Company also assesses the right-of-use asset for impairment when such indicators exist (see Note 2.11).

On the other hand, the Company measures the lease liability at the present value of the lease payments unpaid at the commencement date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate. Lease payments include fixed payments (including in-substance fixed) less lease incentives receivable, if any, amounts expected to be payable under a residual value guarantee, and payments arising from options (either renewal or termination) reasonably certain to be exercised. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Company's lease contracts for certain stores contain variable lease payment terms. Instead of recognizing a right-of-use asset and lease liability, the payments in relation to these are recognized as an expense in profit or loss when incurred.

On the statement of financial position, right-of-use assets and Lease Liabilities have been presented under Property and Equipment, and separately from other liabilities, respectively, in the statement of financial position.

(b) *Company as Lessor*

Leases wherein the Company substantially transfers to the lessee all risks and benefits incidental to ownership of the leased item are classified as finance leases and are presented as receivable at an amount equal to the Company's net investment in the lease. Finance income is recognized based on the pattern reflecting a constant periodic rate of return on the Company's net investment outstanding in respect of the finance lease.

Leases which do not transfer to the lessee substantially all the risks and benefits of ownership of the asset are classified as operating leases. Lease income from operating leases is recognized in profit or loss on a straight-line basis over the lease term.

2.11 *Impairment of Non-financial Assets*

The Company's property and equipment, right-of use assets, and other non-financial assets are subject to impairment testing whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). As a result, some assets are tested for impairment either individually or at the cash-generating unit level.

Impairment loss is recognized for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amounts which is the higher of its fair value less costs to sell and its value in use. In determining value in use, management estimates the expected future cash flows from each cash-generating unit and determines the suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Company's latest approved budget, adjusted as necessary to exclude the effects of asset enhancements. Discount factors are determined individually for each cash-generating unit and reflect management's assessment of respective risk profiles, such as market and asset-specific risk factors.

All assets are subsequently reassessed for indications that an impairment loss previously recognized may no longer exist. An impairment loss is reversed if the asset's or cash-generating unit's recoverable amount exceeds its carrying amount.

2.12 *Employee Benefits*

The Company's employee benefits are recognized and measured as discussed below.

(a) *Post-employment Defined Benefit Plan*

A defined benefit plan is a post-employment plan that defines an amount of post-employment benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and salary. The legal obligation for any benefits from this kind of post-employment plan remains with the Company, even if plan assets for funding the defined benefit plan have been acquired.

The liability recognized in the statement of financial position for a defined benefit plan is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows for expected benefit payments using a discount rate derived from the interest rates of zero coupon government bonds [using the reference rates published by Bloomberg using its valuation technology, Bloomberg Valuation (BVAL)], that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating to the terms of the related post-employment liability. BVAL provides evaluated prices that are based on market observations from contributed sources.

Remeasurements, comprising of actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are reflected immediately in the statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they arise. Net interest is calculated by applying the discount rate at the beginning of the period, unless there is a plan amendment, curtailment or settlement during the period.

The calculation also takes into account of any changes in the defined benefit liability during the period as a result of benefit payments. Interest is reported as part of Finance Costs under Finance Income (Costs) – Net in profit or loss.

Past service costs are recognized immediately in profit or loss in the period of a plan amendment or curtailment.

(b) Post-employment Defined Contribution Plan

A defined contribution plan is a post-employment plan under which the Company pays fixed contributions into an independent entity. The Company has no legal or constructive obligations to pay further contributions after payment of the fixed contribution. The contributions recognized in respect of defined contribution plans are expensed as they fall due. Liabilities or assets may be recognized if underpayment or prepayment has occurred and are included in current liabilities or current assets as they are normally of a short-term nature.

(c) Short-term Employee Benefits

Short-term employee benefits include wages, salaries, bonuses and non-monetary benefits provided to current employees, which are expected to be settled before 12 months after the end of the annual reporting period during which an employee services are rendered, but does not include termination benefits. The undiscounted amount of the benefits expected to be paid in respect of services rendered by employees in an accounting period is recognized in profit or loss during that period and any unsettled amount at the end of the reporting period is included as part of Accrued expenses under Trade and Other Payables in the statement of financial position.

(d) *Termination Benefits*

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Company recognizes termination benefits at the earlier of when it can no longer withdraw the offer of such benefits and when it recognizes costs for a restructuring that is within the scope of PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, and involves the payment of termination benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the reporting period are discounted to their present value.

(e) *Compensated Absences*

Compensated absences are recognized for the number of paid leave days (including holiday entitlement) remaining at the end of the reporting period. They are included in Trade and Other Payables in the statement of financial position at the undiscounted amount that the Company expects to pay as a result of the unused entitlement.

2.13 Borrowing Costs

Borrowing costs are recognized as expenses in the period in which they are incurred, except to the extent that they are capitalized. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset (i.e., an asset that takes a substantial period of time to get ready for its intended use or sale) are capitalized as part of cost of such asset. The capitalization of borrowing costs commences when expenditures for the asset and borrowing costs are being incurred, and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalization ceases when substantially all such activities are complete.

Investment income, if any, earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

2.14 Income Taxes

Tax expense recognized in profit or loss comprises the sum of current tax and deferred tax not recognized in other comprehensive income or directly in equity, if any.

Current tax assets or current tax liabilities comprise those claims from, or obligations to, fiscal authorities relating to the current or prior reporting period, that are uncollected or unpaid at the end of the reporting period. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or current tax liabilities are recognized as a component of tax expense in profit or loss.

Deferred tax is accounted for using the liability method, on temporary differences at the end of the reporting period between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes.

Under the liability method, with certain exceptions, deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and the carryforward of unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized. Unrecognized deferred tax assets are reassessed at the end of each reporting period and are recognized to the extent that it has become probable that future taxable profit will be available to allow such deferred tax assets to be recovered.

Deferred tax assets and deferred tax liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled provided such tax rates have been enacted or substantively enacted at the end of the reporting period.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

The measurement of deferred tax assets or deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Most changes in deferred tax assets or deferred tax liabilities are recognized as a component of tax expense in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Deferred tax assets and deferred tax liabilities are offset if the Company has a legally enforceable right to set-off current tax assets against current tax liabilities and the deferred taxes relate to the same entity and the same taxation authority.

2.15 Related Party Transactions and Relationships

Related party transactions are transfers of resources, services or obligations between the Company and its related parties, regardless whether a price is charged.

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These parties include: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Company; (b) associates; and (c) individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the Company and close members of the family of any such individual.

In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely on the legal form.

Based on the requirements of SEC Memorandum Circular 2019-10, *Rules on Material Related Party Transactions for Publicly-Listed Entities*, transactions amounting to 10% or more of the total assets based on the latest audited financial statements that were entered into with the related parties are considered material.

All individual material related party transactions shall be approved by at least two-thirds vote of the BOD, with at least a majority of the independent directors voting to approve the material related party transactions. In case that a majority of the independent directors' vote is not secured, the material related party transaction may be ratified by the vote of the stockholders representing at least two-third of the outstanding capital stock. For aggregate related party transactions within a 12-month period that breaches the materiality threshold of 10% of the Company's total assets based on the latest audited financial statements, the same BOD approval would be required for the transactions that meet and exceed the materiality threshold covering the same related party.

Directors with personal interest in the transaction should abstain from participating in the discussions and voting on the same. In case they refuse to abstain, their attendance shall not be counted for the purposes of assessing the quorum and their votes shall not be counted for purposes of determining approval.

2.16 Equity

Capital stock represents the nominal value of shares that have been issued.

Additional paid-in capital includes any premium received on the issuance of capital stock. Any transaction costs associated with the issuance of shares are deducted from additional paid-in capital.

Revaluation reserves account pertains to remeasurements of post-employment defined benefit plan (see Note 2.12).

Retained earnings represent all current and prior period results of operations as reported in the profit or loss section of the statement of comprehensive income, reduced by the amounts of dividends declared, if any.

2.17 Basic and Diluted Earnings Per Share

Basic earnings per share (EPS) is determined by dividing net profit by the weighted average number of common shares issued, adjusted for any stock dividends or stock splits, less any shares held in treasury during the reporting period (see Note 20).

Diluted EPS is also computed by dividing net profit by the weighted average number of common shares issued and outstanding during the reporting period. However, net profit attributable to common shares and the weighted average number of common shares outstanding are adjusted to reflect the effects of any potentially dilutive preferred shares, convertible loans and stock options.

Currently, the basic and diluted EPS are the same as there are no dilutive preferred shares, convertible loans and stock options (see Note 20).

2.18 Events After the End of the Reporting Period

Any post-year-end event that provides additional information about the Company's financial position at the end of the reporting period (adjusting event) is reflected in the financial statements. Post-year-end events that are not adjusting events, if any, are disclosed when material to the financial statements.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the Company's financial statements in accordance with PFRS requires management to make judgments and estimates that affect the amounts reported in the financial statements and related notes. Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may ultimately differ from these estimates.

3.1 Critical Management Judgments in Applying Accounting Policies

In the process of applying the Company's accounting policies, management has made the following judgments, apart from those involving estimation, which have the most significant effect on the amounts recognized in the financial statements.

(a) Determination of Lease Term of Contracts with Renewal and Termination Options

In determining the lease term, management considers all relevant factors and circumstances that create an economic incentive to exercise a renewal option or not exercise a termination option. Renewal options and/or periods after termination options are only included in the lease term if the lease is reasonably certain to be extended or not terminated and the renewal of the contract is not subject to mutual agreement of both parties.

The factors that are normally the most relevant are (a) if there are significant penalties should the Company pre-terminate the contract, and (b) if any leasehold improvements are expected to have a significant remaining value, the Company is reasonably certain to extend and not to terminate the lease contract. Otherwise, the Company considers other factors including historical lease durations and the costs and business disruption required to replace the leased asset.

The Company did not include the renewal period as part of the lease term for leases of some of its stores and warehouse due to the provision in its contracts that requires mutual agreement of both parties on the terms and agreements of the renewal and termination of the lease contract.

The lease term is reassessed if an option is actually exercised or not exercised or the Company becomes obliged to exercise or not exercise it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the Company.

(b) Determination of Timing of Satisfaction of Performance Obligations

In determining the appropriate method to use in recognizing the Company's revenue from sale of merchandise, management determines that revenue is recognized at a point in time when the control of the goods have passed to the customer, i.e., generally when the customer acknowledges delivery of the goods.

Miscellaneous income comprise of support received from supplier for store opening and clearance sales. Miscellaneous income is recognized at a point in time when support are received from supplier.

On the other hand, revenue from vendors' support, marketing fees and delivery fees are recognized over time when the Company transfers control of the services over time as the performance of contractually agreed tasks are rendered. The management considers the output method under PFRS 15 as the Company recognizes revenue on the basis of direct measurements of the value to the customer of the services transferred to date relative to the services promised under the contract.

(c) *Determination of Transaction Price of Contract with Customer*

The transaction price is considered receivable to the extent of products sold with a right to avail customer loyalty points, right of return, discounts and rebates. The transaction price of customer loyalty points is allocated amongst the material right and other performance obligations identified in the contract based on the stand-alone selling prices, which are all observable. The Company measures its revenue net of consideration allocated to the fair value of the point credits.

Management has assessed that the amount involved for the right of return is not material and in most cases, customers could exchange the returned items with another merchandise in the store within the prescribed period (i.e., within seven days from date of purchase). Discounts and rebates are identifiable to specific goods and are recognized as reduction against the revenue recognized from sale of merchandise.

(d) *Determination of ECL on Trade and Other Receivables and Security Deposits*

The Company uses a provision matrix to calculate ECL for trade and other receivables and security deposits. The provision rates are based on days past due for groupings of various customer segments to the extent applicable that have similar loss patterns (i.e., by geography, product type, or customer type and rating). The provision matrix is based on the Company's historical observed default rates. The Company's management intends to regularly calibrate (i.e., on an annual basis) the matrix to consider the historical credit loss experience with forward-looking information (i.e., forecast economic conditions). Details about the ECL on the Company's trade and other receivables and security deposits are disclosed in Note 22.2(b) and Note 22.2(c).

(e) *Capitalization of Borrowing Costs*

The Company determines whether the amount of borrowing costs qualify for capitalization as part of the cost of the qualifying asset, or should be expensed outright. The accounting treatment for the finance costs is determined by assessing whether the asset is a qualifying asset taking into consideration the period of time needed to bring the asset for its intended use. Failure to make the right judgment will result in the misstatement of assets and net profit.

(f) *Recognition of Provisions and Contingencies*

Judgment is exercised by management to distinguish between provisions and contingencies. Accounting policies on recognition and disclosure of provisions and contingencies are discussed in Notes 2.8 and 21.

3.2 Key Sources of Estimation Uncertainty

Presented below and in the succeeding pages are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period.

(a) Determination of Appropriate Discount Rate in Measuring Lease Liabilities

The Company measures its lease liabilities at present value of the lease payments that are not paid at the commencement date of the lease contract. The lease payments were discounted using a reasonable rate deemed by management equal to the Company's incremental borrowing rate. In determining a reasonable discount rate, management considers the term of the leases, the underlying asset and the economic environment. Actual results, however, may vary due to changes in estimates brought about by changes in such factors.

(b) Estimation of Allowance for ECL

The measurement of the allowance for ECL on financial assets at amortized cost is an area that requires the use of significant assumptions about the future economic conditions and credit behavior (e.g., likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation used in measuring ECL is further detailed in Note 22.2(b) and Note 22.2(c).

(c) Determination of Net Realizable Value of Merchandise Inventories

In determining the net realizable value of merchandise inventories, management takes into account the most reliable evidence available at the time the estimates are made. The Company's products are subject to inventory obsolescence. Moreover, future realization of the carrying amounts of merchandise inventories as presented in Note 7 is affected by price changes of the products and the costs incurred necessary to make a sale. Both aspects are considered key sources of estimation uncertainty and may cause significant adjustments to the Company's merchandise inventories within the next financial reporting period.

(d) Estimation of Useful Lives of Property and Equipment and Right-of-use Assets

The Company estimates the useful lives of property and equipment and right-of-use assets based on the period over which the assets are expected to be available-for-use. The estimated useful lives of property and equipment and right-of-use assets are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence, and legal or other limits on the use of the assets.

The carrying amounts of property and equipment and right-of-use assets are analyzed in Note 9. Based on management's assessment as at December 31, 2021 and 2020, there is no change in estimated useful lives of property and equipment and right-of-use assets during those years. Actual results, however, may vary due to changes in estimates brought about by changes in factors mentioned above.

(e) *Evaluation of Impairment of Non-financial Assets*

In assessing impairment, management estimates the recoverable amount of each asset or a cash-generating unit based on expected future cash flows and uses an interest rate to calculate the present value of those cash flows. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate (see Note 2.11). Though management believes that the assumptions used in the estimation of fair values reflected in the financial statements are appropriate and reasonable, significant changes in those assumptions may materially affect the assessment of recoverable values and any resulting impairment loss could have a material adverse effect on the results of operations.

Management has assessed that no impairment losses are required to be recognized on non-financial assets in 2021, 2020 and 2019.

(f) *Determination of Realizable Amount of Deferred Tax Assets*

The Company reviews its deferred tax assets at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Management assessed that the deferred tax assets recognized as at December 31, 2021 and 2020 will be fully utilized in the coming years. The carrying values of deferred tax assets netted against deferred tax liabilities as of those reporting periods are disclosed in Note 17.

(g) *Valuation of Post-employment Defined Benefit Obligation*

The determination of the Company's obligation and cost of post-employment defined benefit is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include, among others, discount rates and expected salary increase rates. A significant change in any of these actuarial assumptions may generally affect the recognized expense, other comprehensive income or losses, and the carrying amount of the post-employment benefit obligation in the next reporting period.

The amounts of post-employment benefit obligation and expense, and an analysis of the movements in the estimated present value of post-employment benefit, as well as the significant assumptions used in estimating such obligation are presented in Note 16.2.

4. **SEGMENT REPORTING**

The Company has only one reportable segment, which is the trading business.

Further, the Company has only one geographical segment as all of its operations are based in the Philippines.

The revenue of the Company consists mainly of sales to external customers through its retail and e-commerce channels.

5. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include the following components:

	<u>2021</u>	<u>2020</u>
Cash in banks	P 1,790,302,985	P 1,380,801,441
Short-term placements	90,000,000	400,000,000
Cash on hand	<u>5,240,000</u>	<u>4,805,000</u>
	<u>P 1,885,542,985</u>	<u>P 1,785,606,441</u>

Cash in banks generally earn interest at rates based on daily bank deposit rates.

Short-term placements have maturity of one to 180 days and earn effective interest rates ranging from 0.55% to 1.65% in 2021 and 0.41% to 1.50% in 2020.

Interest income amounting to P1.2 million, P2.3 million and P20.6 million in 2021, 2020 and 2019, respectively, are presented as Finance Income under Finance Income (Costs) – Net section of the statements of comprehensive income.

6. TRADE AND OTHER RECEIVABLES

This account is composed of the following:

	<u>2021</u>	<u>2020</u>
Trade receivables	P 169,575,587	P 217,624,997
Non-trade receivables	247,961,788	290,992,394
Others	<u>24,137,542</u>	<u>24,941,442</u>
	441,674,917	533,558,833
Allowance for impairment losses	(<u>57,876,811</u>)	(<u>16,539,620</u>)
	<u>P 383,798,106</u>	<u>P 517,019,213</u>

Trade receivables are due from various customers and have credit terms ranging from 30 days to 60 days. The carrying amounts of the receivables are considered a reasonable approximation of fair values due to their short duration.

Non-trade receivables comprise of the Company's receivables from suppliers arising from vendors' support, marketing fees and miscellaneous income.

Others pertain to accrued interest receivable and receivable for the transferred retirement benefit obligation from a related party under common ownership (see Note 16.2).

All of the Company's trade and other receivables have been assessed for ECL in 2021, 2020 and 2019. In 2021, 2020 and 2019, the Company recognized an impairment loss amounting to P50.9 million, P5.6 million and P11.0 million, respectively. The impairment loss recognized is presented as Impairment loss under General and Administrative Expenses in the statements of comprehensive income (see Note 14.2).

In 2021, the Company wrote-off certain receivables that are fully provided with allowance amounting to P9.6 million as the management assessed that those receivables are no longer collectible. There was no similar write-off in 2020 and 2019.

A reconciliation of the allowance for impairment of trade receivables at beginning and end of 2021 and 2020 is shown below.

	<u>2021</u>	<u>2020</u>
Balance at beginning of year	P 16,539,620	P 10,961,202
Impairment losses	50,900,369	5,578,418
Write-offs	(9,563,178)	-
Balance at end of year	<u>P 57,876,811</u>	<u>P 16,539,620</u>

7. MERCHANDISE INVENTORIES

Merchandise inventories pertain to goods owned by the Company, which include construction materials, home improvements, furnishings and décor products, among others, that are traded under the normal course of business, and amounted to P7.1 billion and P6.3 billion as of December 31, 2021 and 2020, respectively (see Note 14.1). The Company did not provide any allowance for inventory obsolescence as the merchandise inventories are deemed saleable. Merchandise inventories were all stated at cost, which is lower than net realizable value, as of December 31, 2021 and 2020.

Cost of merchandise inventories charged to operations are presented as Cost of Merchandise Sold in the statements of comprehensive income (see Note 14.1).

8. OTHER ASSETS

The composition of this account is shown below.

	<u>Notes</u>	<u>2021</u>	<u>2020</u>
Current:			
Advances for purchases		P 2,007,698,453	P 374,412,125

		<u>P 2,882,224,957</u>	<u>P 1,195,816,390</u>

Advances for purchases pertain to mobilization funds made to various third party suppliers, including service providers, which are primarily used in the purchase of merchandise inventories subsequent to December 31, 2021 and 2020.

Advances to suppliers pertain to mobilization funds made to various contractors for the construction of several items under property and equipment.

Prepaid rent pertains to advance payment for the rental of new stores in accordance with the lease agreements.

Materials and supplies pertain to construction materials intended for store fit-out.

Security deposits include deposits made to lessors arising from the lease of retail spaces which will be refunded at the end of the lease term or be applied to the last months' rentals on the related contracts and deposits made to a distribution utility as a guarantee for the electric meters installed in the Company's stores.

Others consist of prepaid taxes and licenses, repairs, supplies, insurance, advertising, and dues and subscriptions.

9. PROPERTY AND EQUIPMENT

Construction-in-progress pertains to accumulated costs incurred on the construction of new stores. The ongoing projects as of December 31, 2020 were fully completed in 2021 while the remaining ongoing projects as of December 31, 2021 are expected to be completed by 2022. Other than the remaining capital expenditures, there are no other capital commitments relating to the ongoing projects.

In 2021 and 2020, the Company reclassified certain Construction-in-progress which pertains to unused construction materials as of December 31, 2021 and 2020 amounting to P90.1 million and P294.7 million, respectively, to Materials and supplies under the Other Non-current Assets in the statements of financial position (see Note 8).

The Company's right-of-use assets pertain to store and warehouse facilities with terms ranging from two to 16 years, inclusive of reasonably certain extension period [refer also to Note 3.1(a)], and an average remaining lease term of six years as of December 31, 2021 (see Note 12). In addition, there are leases with extension options and with variable consideration. Each lease generally imposes a restriction that, unless there is a contractual right for the Company to sublease the asset to another party, the right-of-use asset can only be used by the Company. The Company must keep those properties in a good state of repair and return the properties in their original condition at the end of the lease. There are no leases with options to purchase or terminate. The Company has no low-value leases.

In 2021, the Company wrote-off certain property and equipment with total cost and accumulated depreciation of P17.3 million and P10.8 million, respectively. The related loss arising from this transaction is presented as part of Miscellaneous expenses under General and Administrative Expenses in the 2021 statement of comprehensive income (see Note 14.2). There was no similar transaction in 2020 and 2019.

In 2021 and 2019, borrowing costs amounting to P190.1 million and P220.3 million, respectively, based on capitalization rate ranging from 5.00% to 6.75% for specific borrowing in those years, were capitalized as part of construction-in-progress (see Note 11). There was no borrowing cost capitalized in 2020.

The amount of depreciation and amortization is presented as part of General and Administrative Expenses in the statements of comprehensive income (see Note 14.2).

As of December 31, 2021 and 2020, the gross carrying amount of the Company's fully depreciated property and equipment that are still used in operations is P58.9 million and P46.1 million, respectively.

There were no items of property and equipment that were used as collateral for any of the Company's loans.

The Company also recognized rental income from its operating leases as lessor amounting to P24.8 million, P13.3 million and P24.7 million in 2021, 2020 and 2019, respectively and is presented as part of Support, Fees, Rentals and Other Revenues in the statements of comprehensive income (see Note 13).

10. TRADE AND OTHER PAYABLES

This account consists of:

	Note	2021	2020
Trade payables		P 1,090,217,999	P 1,064,726,977
Accrued expenses	11	81,149,019	50,363,673
VAT payable		24,994,456	48,165,800
Withholding taxes payable		19,319,828	14,397,502
Non-trade payables		10,498,035	133,251,156
Others		3,498,936	4,885,188
		<u>P 1,229,678,273</u>	<u>P 1,315,790,296</u>

Trade payables arise from the Company's purchases of merchandise inventories and other direct costs. These are noninterest-bearing and have credit terms ranging from 30 days to 60 days.

Accrued expenses are liabilities arising from unpaid interest on loans, rent, utilities, salaries and other costs.

Non-trade payables arise from the Company's capital asset acquisitions and other operating expenditures not yet paid as of the end of the period.

Retention payable pertains to the amount withheld from service contractors which shall be refunded at the end of the contract.

The Company operates a customer loyalty incentive programme where individual customers accumulate points for purchases made which entitle them for award credits on future purchases. In 2021 and 2020, the Company recognized deferred revenue for the unredeemed points amounting to P0.6 million for both years which is presented as part of Others.

11. LOANS AND BORROWINGS

11.1 Short-term Loans

The Company obtained various short-term loans from various local banks for the Company's working capital requirements with fixed interest rates ranging from 5.50% to 8.25% in 2021 and 6.50% to 8.25% in 2020, and with terms of 150 to 360 days. The short-term loans in 2020 are rolled-over upon maturity. There are no loan covenants on the Company's short-term loans.

11.2 Long-term Loans

In 2021, the Company obtained four-year corporate loans, from various local banks, to partially finance the construction and expansion of the Company's stores and refinance existing loan obligation, with fixed interest rates ranging from 5.00% to 5.85%.

Certain loans of the Company with local banks are subject to covenants. The Company has to maintain a minimum current ratio of at least 1.00, maximum debt-to-equity ratio of not more than 2.50 and a minimum debt-service coverage ratio of at least 1.00. The ratios are computed on the basis of the Company's annual audited financial statements. The Company has properly complied with the loans covenants as of December 31, 2021. There was no outstanding long-term loan as of December 31, 2020.

Interest expense incurred on these loans, which is presented as part of Finance Costs under Finance Income (Costs) – Net section of the statements of comprehensive income, amounted to P78.7 million, P48.9 million and P112.1 million in 2021, 2020 and 2019, respectively (see Note 15). On the other hand, capitalized borrowing costs amounting to P190.1 million and P220.3 million in 2021 and 2019, respectively, based on capitalization rate ranging from 5.00% to 6.75% for specific borrowing in those periods, were included as part of construction-in-progress (see Note 9). There was no borrowing cost recognized in 2020.

Interest payable from these loans amounted to P19.3 million and P5.2 million as of December 31, 2021 and 2020, respectively, and is presented as part of Accrued expenses under Trade and Other Payables in the statements of financial position (see Note 10). There were no assets used as collateral for any of the Company's loans.

A reconciliation of the carrying amounts of short-term and long-term loans at the beginning and end of December 31, 2021, 2020 and 2019 is presented below.

12. LEASES

The Company is a lessee under non-cancellable operating leases covering its store outlets and warehouse facilities (see Note 9). These lease contracts include extension and variable lease payments. With the exception of leases with variable consideration, each lease is reflected on the statement of financial position as a right-of-use asset presented under Property and Equipment and a lease liability presented separately from other liabilities.

The security deposits paid in connection with the leases amounting to P176.4 million as of December 31, 2021 is presented as Security deposits under Other Non-current Assets in the 2021 statement of financial position (see Note 8). Management believes that no allowance for ECL is required for security deposits since there has been no significant change in the credit quality of the accounts [see Note 22.2(c)].

12.1 Lease Liabilities

Lease liabilities are presented in the statements of financial position as follows:

	<u>2021</u>	<u>2020</u>
Current	P 613,792,986	P 384,798,495
Non-current	<u>3,927,898,004</u>	<u>4,180,721,841</u>
	<u>P 4,541,690,990</u>	<u>P 4,565,520,336</u>

The movements in the lease liability recognized in the statements of financial position are as follows:

	<u>2021</u>	<u>2020</u>
Balance as of January 1	P 4,565,520,336	P 4,942,209,363
Cash flows from financing activities –		
Repayment of lease liabilities	(468,344,132)	(362,633,572)
Non-cash financing activities:		
Additional lease liabilities	444,514,786	5,575,953
Lease modification	<u>-</u>	(<u>19,631,408</u>)
Balance as of December 31	<u>P 4,541,690,990</u>	<u>P 4,565,520,336</u>

The use of termination option to certain lease contracts gives the Company added flexibility in the event it has identified more suitable premises in terms of cost and/or location. The future cash outflows to which the Company is potentially exposed to that are not reflected in the measurement of lease liabilities represent the amount of remaining utility bills until clearance from the contract, other damages to the premises, if any, and the security deposits and advance rentals to be forfeited. An option is only exercised when consistent with the Company's business strategy and the economic benefits of exercising such option exceeds the expected overall cost.

With the exception of lease with variable consideration, the lease contracts have a remaining lease term of six years as of December 31, 2021.

In 2020, the Company derecognized right-of-use assets with a carrying amount of P20.9 million, as a result of the pre-termination of leases on certain warehouse facilities (see Note 9). The corresponding lease liabilities derecognized amounted to P19.6 million. Loss on lease modification amounting to P1.3 million was recognized and is presented as part of General and Administrative Expenses in the 2020 statement of comprehensive income (see Note 14.2). There was no similar transaction in 2021.

As of December 31, 2021, the Company has no commitments for leases entered into which had not commenced.

The lease liabilities are secured by the related underlying assets. The undiscounted maturity analysis of lease liabilities at December 31 are as follows:

		2021

12.2 Lease Payments Not Recognized as Liabilities

The Company also entered into lease agreements that contain variable payment linked to sales generated from certain stores. The expenses relating to these leases amounting to P467.4 million, P343.4 million and P181.9 million in 2021, 2020 and 2019, respectively, are presented as Rentals under Selling Expenses in the statements of comprehensive income (see Notes 12.3 and 14.2).

If the sales of the Company had changed by an average of +/-1.0%, the variable rent expense would have changed by +/- P3.3 million, +/- P2.4 million and +/- P1.2 million in 2021, 2020 and 2019, respectively.

12.3 Additional Profit or Loss and Cash Flow Information

The total cash outflow in respect of leases, including payments in lease agreements that contain variable payment linked to sales as mentioned in Note 12.2, amounted to P1,248.0 million, P1,031.3 million and P751.4 million in 2021, 2020 and 2019, respectively.

The expenses recognized in the statements of comprehensive income are as follows:

	Notes	2021	2020	2019

16.2 Post-employment Defined Benefit Plan

(a) Characteristics of the Defined Benefit Plan

The Company maintains an unfunded, noncontributory post-employment defined benefit plan covering all qualified employees.

The normal retirement age of the Company's employees is at 60 with a minimum of five years of credited service. The compulsory retirement age is at 65 with a minimum of five years of credited service. The normal retirement benefit is equal to 100% of the monthly salary multiplied by every year of credited service.

(b) *Explanation of Amounts Presented in the Financial Statements*

The most recent actuarial valuation in 2021 and 2020 dated March 9, 2022 and 2021, respectively, was performed by a professionally qualified external actuary.

The movements in the present value of the retirement benefit obligation recognized in the statements of financial position are as follows:

	<u>2021</u>	<u>2020</u>
Balance at beginning of year	P 68,318,864	P 73,324,090
Current service cost	12,175,509	12,850,645
Interest expense	2,729,200	3,662,586
Transferred liability	(774,563)	8,195,857
Actuarial losses (gains) arising from:		
Changes in financial assumptions	(11,176,623)	8,937,510
Experience adjustments	(886,785)	(32,195,182)
Changes in demographic assumptions	<u>-</u>	(<u>6,456,642</u>)
Balance at end of year	<u>P 70,385,602</u>	<u>P 68,318,864</u>

In 2021, the Company transferred (acquired) certain employees to (from) related parties under common ownership. This resulted to a release of net obligation amounting to P0.8 million. In 2020, the Company recognized a receivable for the transferred retirement benefit obligation related to the transfer of employees to the Company from a related party under common ownership amounting to P8.2 million which remained outstanding as of December 31, 2021 and 2020. The outstanding receivable is presented as part of Others under Trade and Other Receivables in the statements of financial position (see Notes 6 and 18).

The amounts of post-employment benefit recognized in profit or loss and in other comprehensive loss in respect of the defined benefit post-employment plan are as follows (see Note 16.1):

	<u>2021</u>	<u>2020</u>	<u>2019</u>
<i>Reported in profit or loss:</i>			
Current service cost	P 12,175,509	P 12,850,645	P 11,850,357
Interest expense	<u>2,729,200</u>	<u>3,662,586</u>	<u>2,047,963</u>
	<u>P 14,904,709</u>	<u>P 16,513,231</u>	<u>P 13,898,320</u>
<i>Reported in other comprehensive loss (income):</i>			
Actuarial losses (gains) arising from:			
Changes in financial assumptions	(P 11,176,623)	P 8,937,510	P -
Experience adjustments	(886,785)	(32,195,182)	42,709,522
Changes in demographic assumptions	<u>-</u>	<u>(6,456,642)</u>	<u>-</u>
	(<u>P 12,063,408</u>)	(<u>P 29,714,314</u>)	<u>P 42,709,522</u>

The interest expense is included as part of Finance Costs under Finance Income (Costs) – Net section of the statements of comprehensive income (see Note 15).

Amounts recognized in other comprehensive income (loss) were included within items that will not be reclassified subsequently to profit or loss.

In determining the amount of the retirement benefit obligation, the following significant actuarial assumptions were used for the year ended December 31:

	<u>2021</u>	<u>2020</u>
Discount rates	5.18%	4.06%
Expected rate of salary increases	7.75%	7.75%

Assumptions regarding future mortality experience are based on published statistics and mortality tables. The average remaining working lives of an individual retiring at the age of 60 is 28 years. These assumptions were developed by management with the assistance of an independent actuary. Discount factors are determined close to the end of each reporting period by reference to the interest rates of zero coupon government bonds with terms to maturity approximating to the terms of the post-employment obligation. Other assumptions are based on current actuarial benchmarks and management's historical experience.

(c) *Risks Associated with the Retirement Plan*

The plan exposes the Company to actuarial risks such as interest rate risk, longevity risk and salary risk.

(i) *Interest Rate Risk*

The present value of the defined benefit obligation is calculated using a discount rate determined by reference to market yields of government bonds. Generally, a decrease in the interest rate of a reference government bonds will increase the plan obligation.

(ii) *Longevity and Salary Risks*

The present value of the defined benefit obligation is calculated by reference to the best estimate of the mortality of the plan participants during their employment and to their future salaries. Consequently, increases in the life expectancy and salary of the plan participants will result in an increase in the plan obligation.

(d) *Other Information*

The information on the sensitivity analysis for certain significant actuarial assumptions, and the timing and uncertainty of future cash flows related to the retirement plan as of December 31, 2021 and 2020 are discussed below and in the succeeding pages.

(i) *Sensitivity Analysis*

The following table summarizes the effects of changes in the significant actuarial assumptions used in the determination of the defined benefit obligation as of December 31, 2021 and 2020:

	Impact on Retirement Benefit Obligation		
	Change in assumption	Increase in assumption	Decrease in assumption
<u>2021:</u>			
Discount rate	+/- 1%	(P 8,175,215)	P 9,837,972
Salary growth rate	+/- 1%	9,839,299 (8,343,738)
<u>2020:</u>			
Discount rate	+/- 1%	(P 8,659,130)	P 10,517,134
Salary growth rate	+/- 1%	10,370,692 (8,731,300)

The sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. This analysis may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation recognized in the 2021 statement of financial position.

(ii) *Funding Arrangements and Expected Contributions*

The plan is currently unfunded by P70.4 million based on the latest actuarial valuation. While there are no minimum funding requirement in the country, the size of the underfunding may pose a cash flow risk that the Company may be exposed to if several employees retire within the same year.

The Company has yet to determine when to establish a retirement fund and how much to contribute.

The maturity profile of the undiscounted expected benefit payments as of December 31 from the plan follows:

	<u>2021</u>		<u>2020</u>
Within five years	P 13,483,085	P	11,784,535
More than five years to 10 years	41,582,053		36,369,195
More than 10 years	<u>698,829,085</u>		<u>586,919,188</u>
	<u>P 753,894,223</u>	P	<u>635,072,918</u>

Management expects that a substantial portion of the undiscounted expected benefit payments is probable after 10 years from the end of the reporting period. The weighted average duration of the defined benefit obligation at the end of the reporting period is 23 years.

17. INCOME TAXES

On March 26, 2021, Republic Act (R.A.) No. 11534, *Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act*, as amended, was signed into law and shall be effective beginning July 1, 2020. The following are the major changes brought about by the CREATE Act that are relevant to and considered by the Company:

- regular corporate income tax (RCIT) rate was reduced from 30% to 25% starting July 1, 2020;
- minimum corporate income tax (MCIT) rate was reduced from 2% to 1% starting July 1, 2020 until June 30, 2023; and,
- the allowable deduction for interest expense is reduced from 33% to 20% of the interest income subjected to final tax.

As a result of the application of the lower RCIT rate of 25% starting July 1, 2020, the current income tax expense and income tax payable, as presented in the 2020 annual income tax return (ITR) of the Company, were lower by P24.3 million than the amount presented in the 2020 financial statements and such amount was charged to 2021 profit or loss.

In 2021, the recognized net deferred tax liabilities as of December 31, 2020 was remeasured to 25%. This resulted in a net decline in the recognized deferred tax liabilities in 2020 by P50.0 million and such was recognized in the 2021 profit or loss (P50.6 million) and in other comprehensive (P0.6 million).

The components of tax expense as reported in profit or loss follow:

	<u>2021</u>	<u>2020</u>	<u>2019</u>

Management determines possible impairment based on the related parties' ability to repay the advances upon demand at the reporting date taking into consideration the historical defaults from the related parties. Management assessed that the outstanding receivables from related parties as of December 31, 2021 and 2020 are recoverable since these related parties have the capacity to pay the advances upon demand. There were no impairment losses recognized for these receivables from related parties in 2021, 2020 and 2019.

18.1 Advances Obtained

The Company obtains unsecured, noninterest-bearing cash advances from its parent company and related parties under common ownership for its working capital requirements, which are payable in cash upon demand.

In 2019, the Company's payable to a related party under common ownership was assigned to the parent company. Also in 2019, the Company has set-off certain advances payable to the parent company against its receivable from the same related party (see Note 18.2). There were no similar transactions in 2021 and 2020.

In 2019, the Company issued additional shares of stock amounting to P1,000.0 million and P660.0 million, which was subscribed and fully paid through the conversion of certain advances from related parties to equity (see Note 19.1). There were no similar transactions in 2021 and 2020.

18.2 Advances Granted

The Company provides unsecured, noninterest-bearing cash advances to its related parties under common ownership for their working capital requirements, which are collectible in cash on demand.

In 2019, the Company's receivables from related parties under common ownership were assigned by the related parties to the parent company. These receivables were subsequently set-off by the Company against its payables to the parent company (see Note 18.1). There were no similar transactions in 2021 and 2020.

18.3 Guarantees of Loans

The Company obtained short-term loans with interest rates ranging from 6.50% to 8.25% in 2020, for additional working capital requirements and store construction and expansion. The short-term loans are secured by cross suretyship of its ultimate parent company. In 2021, the cross suretyship of its ultimate parent company were released.

18.4 Sale of Merchandise

The Company sells various merchandise items to its related parties with similar transaction price and terms under exact business circumstance with third parties. These transactions are presented as part of Revenues in the statements of comprehensive income (see Note 13).

18.5 Key Management Personnel Compensation

The total compensation of key management personnel, which include all managers and executives, is shown below.

On July 8, 2019, the SEC approved the Company's application for the increase of authorized capital stock from P2.0 billion to P6.0 billion divided into 5,900,000,000 common shares with par value of P1.00 per common share and 1,000,000,000 preferred shares with par value of P0.10 per preferred share. On the same date, the Company issued 1,000,000,000 common shares for the payment of certain advances from its parent company that were converted into equity and two common shares for a consideration of P2.00 to independent directors (see Note 18.1).

On October 10, 2019, the Company, by way of a primary offering (IPO), sold 750,000,000 shares of its common stock (Offer Share) at an offer price of P11.50 per Offer Share, and generated proceeds of P7,959.3 million from such IPO, net of IPO expenses amounting to P665.7 million.

As of December 31, 2021 and 2020, the Company's number of shares registered totaled 3,750,000,002 with par value of P1.00 per share and closed at a price of P8.39 in 2021. The total number of stockholders is 32 and 29 as of December 31, 2021 and 2020, with the shares held in the name of PCD Nominee Corporation belonging to 128 and 132 participants, respectively. The public float lodged with PCD Nominee Corporation is counted only as one stockholder.

19.2 Additional Paid-In Capital

Additional paid-in capital consists of P7,209.3 million from the initial public offering in 2019, net of P665.7 million stock issuance costs incurred such as underwriting fees and commissions, taxes and filing fees (see Note 19.1).

19.3 Dividends Declaration

In 2021, 2020 and 2019, the Company's BOD approved the declaration of cash dividends amounting to P197.6 million (P0.0527 per share), P52.5 million (P0.0140 per share) and P25.6 million (P1.280 per share) on November 12, 2021, November 25, 2020 and May 28, 2019 respectively, and payable to stockholders of record as of November 29, 2021, December 14, 2020 and June 14, 2019, respectively. The cash dividends were fully settled on December 14, 2021, December 28, 2020 and June 28, 2019, respectively.

Basic and diluted EPS	<u>P 0.39</u>	<u>P 0.26</u>	<u>P 0.39</u>

The Company has no potential dilutive common shares as of December 31, 2021, 2020 and 2019.

21. COMMITMENTS AND CONTINGENCIES

The significant commitments and contingencies involving the Company are presented below.

21.1 Legal Claims

The Company is a party to certain case from the normal course of business. The Company and its legal counsel believe that any eventual liabilities under this case will not have a material effect on the financial statements. Accordingly, no provision for probable losses arising from legal contingencies was recognized in the financial statements as of December 31, 2021 and 2020.

21.2 Others

There are other commitments, guarantees and contingent liabilities that may arise in the normal course of operations of the Company which are not reflected in the financial statements. As of December 31, 2021 and 2020, management is of the opinion that losses, if any, from these items will not have any material effect on the Company's financial statements, taken as a whole.

22. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company is exposed to a variety of operational and financial risks in relation to financial instruments. The Company's risk management is coordinated with its parent company, in close cooperation with the Company's BOD.

The Company does not normally engage in the trading of financial assets for speculative purposes nor does it write options. The most significant operational and financial risks to which the Company is exposed to are described below and in the succeeding pages.

22.1 Interest Rate Risk

The Company's policy is to minimize interest rate cash flow risk exposures on long-term financing. In 2021, 2020 and 2019, the Company is exposed to changes in market interest rates through its cash in banks and short-term placements, which are subject to variable interest rates. However, due to its short-duration, management believes that the interest rate sensitivity and its effect on the net result for the year and equity are not significant (see Note 5).

On the other hand, the Company's long-term bank loans are subject to fixed rates ranging from 5.00% to 5.85% per annum in 2021 and 6.25% to 6.69% per annum in 2019 (see Note 11). Accordingly, management assessed that the Company is not significantly exposed to changes in market interest rates for its bank borrowings in 2021. There was no long-term bank loan in 2020.

22.2 Credit Risk

Credit risk is the risk that counterparty may fail to discharge an obligation to the Company. The Company is exposed to this risk for various financial instruments, for example by granting receivables to customers and related parties, and placing deposits.

The Company continuously monitors defaults of other counterparties, identified individually, and incorporates this information into its credit risk controls. The Company's policy is to deal only with creditworthy counterparties.

Generally, the maximum credit risk exposure of financial assets is the carrying amount of the financial assets as shown in the statements of financial position or in the detailed analysis provided in the notes to the financial statements, as summarized below and in the succeeding page.

	Notes	2021	2020
Cash and cash equivalents	5	P 1,885,542,985	P 1,785,606,441
Trade and other receivables	6	383,798,106	517,019,213
Security deposits	8	176,385,614	-
		<u>P 2,445,726,705</u>	<u>P 2,302,625,654</u>

Except for cash in banks, none of the Company's financial assets are secured by collateral or other credit enhancements.

(a) *Cash*

The credit risk for cash is considered negligible since the counterparties are reputable banks with high quality external credit ratings. Included in the cash are cash in banks which are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of P0.5 million for every depositor per banking institution.

(b) *Trade and Other Receivables*

The Company applies the PFRS 9 simplified approach in measuring ECL which uses a lifetime expected loss allowance for trade and other receivables.

To measure the ECL, trade receivables have been grouped based on shared credit risk characteristics and the days past due (age buckets). The Company also concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the other receivables as it shares the same credit risk characteristics.

The expected loss rates are based on the payment and aging profiles over a period of 5 years before December 31, 2021 and 2020, and the corresponding historical credit losses experienced within such period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Company has identified that the Philippine gross domestic product in 2021 and 2020 was the most relevant factor, and accordingly adjusts the historical loss rates based on expected changes in this factor.

The Company identifies a default when the receivables become credit-impaired or when the customer is not able to settle the receivables within the normal credit terms of 30 to 60 days, depending on the terms with customers; hence, these receivables were already considered as past due on its contractual payment. In addition, the Company considers qualitative assessment in determining default such as in instances where the customer is unlikely to pay its obligations and is deemed to be in significant financial difficulty.

The table below summarizes the loss allowance of the Company based on the past due months of trade receivables:

2021						
	Not yet due/ Within in 1 year		1 to 2 years		2 to 3 years	More than 3 years Total
Expected loss rate	0.00%		84.74%		94.88%	100.00%
Gross carrying amount	P 106,343,848	P	20,881,134	P	42,350,605	P 169,575,587
Loss allowance	-		17,695,599		40,181,212	57,876,811
2020						
	Not yet due/ Within in 1 year		1 to 2 years		2 to 3 years	More than 3 years Total
Expected loss rate	0.00%		21.11%		33.73%	52.93%
Gross carrying amount	P 161,362,756	P	33,220,585	P	13,898,081	P 217,624,997
Loss allowance	-		7,012,152		4,687,452	16,539,620

On the other hand, based on the analysis, there is no loss allowance provided as at December 31, 2021 and 2020, on the Company's non-trade receivables as the Company does not have any non-trade receivables which has been outstanding for more than three months. The Company's management continues to monitor counterparties default rates and macroeconomic factors affecting the counterparties' ability to settle the receivables. Management considers the credit quality of non-trade receivables that are not past due or impaired to be good.

(c) *Security Deposits*

The Company is not exposed to any significant credit risk exposure, since the counterparties are reputable lessors with sound liquid position. The Company can apply such deposits to future payments in case it defaults.

22.3 Liquidity Risk

The Company manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term financial liabilities as well as cash outflows due in a day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for a six-month and one-year period are identified monthly.

The Company maintains cash to meet its liquidity requirements for up to 30-day periods. Excess cash are invested in short-term placements. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets.

As of December 31, 2021 the Company's financial liabilities have contractual maturities which are summarized below.

	Notes	Current		Non-current	
		Upon demand/ Within Six Months	Six to 12 Months	One to Three Years	Later than Three Years
Trade and other payables	10	P 1,185,363,989	P -	P -	P -

		P 3,791,178,715	P 532,819,530	P 2,753,577,643	P 6,353,348,750

This compares to the contractual maturities of the Company's financial liabilities as of December 31, 2020 as follows:

	Notes	Current		Non-current	
		Upon demand/ Within Six Months	Six to 12 Months	One to Three Years	Later than Three Years
Trade and other payables	10	P 1,253,226,994	P -	P -	P -
Loans payable	11	1,632,936,747	467,932,669	-	-
Lease liabilities	12	343,130,431	341,316,550	2,047,389,718	4,071,312,468
		P 3,229,294,172	P 809,249,219	P 2,047,389,718	P 4,071,312,468

The contractual maturities reflect the gross cash flows, which may differ from the carrying values of the financial liabilities at the end of the reporting periods.

23. CATEGORIES AND FAIR VALUE MEASUREMENTS

23.1 Carrying Amounts and Fair Values Category

The Company has no financial assets and financial liabilities carried at fair value.

For the Company's financial assets and liabilities carried at amortized cost as at December 31, 2021 and 2020, management considers that the carrying values of these financial instruments approximate their fair values either because these instruments are short-term in nature or the effect of discounting for those maturities of more than one year is not material, hence, no further comparison between the carrying amounts and fair values is presented.

See Note 2.3 for a description of the accounting policies for each category of financial instrument. A description of the Company's risk management objectives and policies for financial instruments is provided in Note 22.

23.2 Offsetting of Financial Assets and Financial Liabilities

The Company has not set-off financial instruments in 2021 and 2020. For financial assets and financial liabilities subject to enforceable master netting agreements or similar arrangements, each agreement between the Company and counterparties (i.e. related parties including parent company and companies under common ownership) allows for the net settlement of the relevant financial assets and financial liabilities when both elect to settle on a net basis. In the absence of such an election, financial assets and financial liabilities will be settled on a gross basis, however, each party to the master netting agreement or similar agreement will have the option to settle all such amounts on a net basis in the event of default of the other party.

As of December 31, 2021 and 2020, the Company does not have any financial assets that may be potentially set-off against its outstanding liabilities to related parties.

23.3 Fair Value Hierarchy

In accordance with PFRS 13, *Fair Value Measurement*, the fair value of financial assets and liabilities and non-financial assets which are measured at fair value on a recurring or non-recurring basis and those assets and liabilities not measured at fair value but for which fair value is disclosed in accordance with other relevant PFRS, are categorized into three levels based on the significance of inputs used to measure the fair value. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value at Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

There are no financial assets and financial liabilities measured at fair value as of December 31, 2021 and 2020. Neither was there transfers among fair value levels in those years.

23.4 Financial Instruments Measured at Amortized Cost for which Fair Value is Disclosed

The table below summarizes the fair value hierarchy of the Company's financial assets and financial liabilities which are not measured at fair value in the statements of financial position but for which fair value is disclosed (see Note 23.1).

24. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND PROCEDURES

The Company's capital management objective is to ensure the Company's ability to continue as a going concern entity. Essentially, the Company, in coordination with its parent company, monitors capital on the basis of the carrying amount of equity as presented in the statements of financial position.

The Company manages the capital structure and makes adjustments to consider changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

The Company monitors capital on the basis of the carrying amount of equity as presented in the statements of financial position. Capital for the reporting periods under review is summarized as follows:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Total liabilities	P 11,186,695,147	P 8,404,068,168	P 7,270,207,745
Total equity	<u>14,626,013,539</u>	<u>13,370,938,647</u>	<u>12,414,922,778</u>
Debt-to-equity ratio	<u>0.76 : 1.00</u>	<u>0.63 : 1.00</u>	<u>0.59 : 1.00</u>

The Company monitors capital on the debt-to-equity ratio on its covenants with certain financial institutions. In 2021, the Company has to maintain a minimum current ratio of at least 1.00, maximum debt-to-equity ratio of 2.50:1.00, and a minimum debt-service coverage ratio of at least 1.00. The Company has properly complied with the loans' covenants as of December 31, 2021. The Company did not have any loan covenants to comply with as of December 31, 2020. There was no outstanding loan as of December 31, 2019.

25. EVENT AFTER THE END OF THE REPORTING PERIOD

On January 8, 2022, the Company's store outlets located at Alabang, Muntinlupa City, were severely damaged by fire. Based on management's assessment, the estimated losses on inventory and property and equipment amounted to P83.0 million and P219.0 million, respectively. As of the date of issuance of the financial statements, insurance claims are in process and are expected to be settled by second quarter of 2022. The Company's total coverage for the insurance amounted to P302.0 million. Losses incurred will be taken up in 2022.

26. SUPPLEMENTARY INFORMATION REQUIRED BY THE BIR

Presented below and in the succeeding pages is the supplementary information on taxes, duties and licenses fees paid or accrued during the taxable year which is required by the BIR under Revenue Regulations No. 15-2010 to be disclosed as part of the notes to financial statements. This supplementary information is not a required disclosure under PFRS.

(a) Output VAT

In 2021, the Company declared output VAT as follows:

	<u>Tax Base</u>	<u>Output VAT</u>
Sale of merchandise	P 14,324,858,249	P 1,718,982,990
Other income:		
Vendors' support	246,047,552	29,525,706

We have audited, in accordance with Philippine Standards on Auditing, the financial statements of AllHome Corp. (the Company) for the years ended December 31, 2021 and 2020, on which we have rendered our report dated March 30, 2022. Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The Supplementary Schedule on Financial Soundness Indicators, including their definitions, formulas, calculation, and their appropriateness or usefulness to the intended users, are the responsibility of the Company's management. These financial soundness indicators are not measures of operating performance defined by Philippine Financial Reporting Standards (PFRS) and may not be comparable to similarly titled measures presented by other companies. This schedule is presented for the purposes of complying with the Revised Securities Regulation Code Rule 68 issued by the Securities and Exchange Commission, and is not a required part of the basic financial statements prepared in accordance with PFRS. The components of these financial soundness indicators have been traced to the Company's financial statements as of December 31, 2021 and 2020 and for each of the two years in the period ended December 31, 2021 and no material exceptions were noted.

2. Summary of Significant Accounting Policies

The significant accounting policies that have been used in the preparation of these financial statements are summarized below and in the succeeding pages. The policies have been consistently applied to all the periods presented, unless otherwise stated.

Basis of Preparation of Financial Statements

The interim condensed financial statements as at March 31, 2022 and for the three-months ended March 31, 2022 and 2021 have been prepared on a historical basis, except for financial assets which have been measured at fair value.

The financial statements are presented in Philippine pesos (₱), the Company's functional and presentation currency, and all values represent absolute amounts, unless otherwise indicated.

Statement of Compliance

The interim condensed financial statements have been prepared in accordance with Philippine Accounting Standard (PAS) 34, Interim Financial Reporting. Accordingly, the interim condensed financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Company's annual financial statements as at and for the year ended December 31, 2021 which have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of previous financial year, except that the Company has adopted the following new pronouncements starting January 1, 2021. Adoption of these pronouncement did not have any significant impact on the Company's financial position or performance unless otherwise indicated.

- (i) PFRS 9 (Amendments), Financial Instruments, PFRS 7 (Amendments), Financial Instruments: Disclosures, and PFRS 16 (Amendments), Leases – Interest Rate Benchmark Reform Phase 2. The amendments address issues that may affect financial reporting during the interest rate benchmark reform, including the effect of changes to contractual cash flows or hedging relationships resulting from the replacement of the London Interbank Offered Rate (LIBOR) with alternative benchmark rates. The Phase 2 amendments have no impact to the Company's financial statements as the Company did not have any financial instruments subject to LIBOR.
- (ii) PFRS 16, Leases – COVID-19-Related Rent Concessions beyond June 30, 2021. The amendment extends for one year the use of practical expedient of not assessing whether rent concessions reducing payments up until June 30, 2022 occurring as a direct consequence of the COVID-19 pandemic are lease modifications and instead to account for those rent concessions as if they are not lease modifications. The application of these amendments had no significant impact to the Company's financial statements as the Company did not receive any rent concession from its lessors in 2021.

Financial Assets

Financial assets are recognized when the Company becomes a party to the contractual terms of the financial instrument. For purposes of classifying financial assets, an instrument is considered as an equity instrument if it is non-derivative and meets the definition of equity for the issuer in accordance with the criteria of PAS 32, *Financial Instruments: Presentation*. All other non-derivative financial instruments are treated as debt instruments.

Classification, Measurement and Reclassification of Financial Assets

The classification and measurement of financial assets are driven by the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. The classification and measurement of financial assets are at amortized cost, at FVOCI and at fair value through profit or loss (FVTPL).

The financial assets category that is currently relevant to the Company is financial assets at amortized cost.

Financial assets are measured at amortized cost if both of the following conditions are met:

- the asset is held within the Company's business model whose objective is to hold financial assets in order to collect contractual cash flows ("hold to collect"); and,
- the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Except for trade receivables that do not contain a significant financing component and are measured at the transaction price in accordance with PFRS 15, *Revenue from Contracts with Customers*, all financial assets meeting these criteria are measured initially at fair value plus transaction costs. These are subsequently measured at amortized cost using the effective interest method, less any impairment in value.

The Company's financial assets at amortized cost are presented in the statement of financial position as Cash and Cash Equivalents, Trade and Other Receivables and Security Deposits presented as part of Other Non-current assets.

For purposes of cash flows reporting and presentation, cash and cash equivalents includes cash on hand, demand deposits and short-term, highly liquid investments with original maturities of three months or less, readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of the financial assets except for those that are subsequently identified as credit-impaired. For credit-impaired financial assets at amortized cost, the effective interest rate is applied to the net carrying amount of the financial assets (after deduction of the loss allowance). The interest earned is recognized in the statement of comprehensive income as finance income under Finance Income (Costs).

Impairment of Financial Assets

At the end of the reporting period, the Company assesses its Expected Credit Losses (ECL) on a forward-looking basis associated with its financial assets carried at amortized cost. Recognition of credit losses is no longer dependent on the Company's identification of a credit loss event. Instead, the Company considers a broader range of information in assessing credit risk and measuring ECL, including past events, current conditions, reasonable and supportable forecasts that affect collectibility of the future cash flows of the financial assets.

The Company applies the simplified approach in measuring ECL, which uses a lifetime expected loss allowance for all trade receivables. These are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial assets. To calculate the ECL, the Company uses its historical experience, external indicators and forward-looking information to calculate the ECL using a provision matrix. The Company also assesses impairment of trade receivables on a collective basis as they possess shared credit risk characteristics and have been grouped based on the days past due [see Note 22.2(b)].

The key elements used in the calculation of ECL are as follows:

- *Probability of default* – It is an estimate of likelihood of a counterparty defaulting at its financial obligation over a given time horizon, either over the next 12 months or the remaining lifetime of the obligation.
- *Loss given default* – It is an estimate of loss arising in case where a default occurs at a given time. It is based on the difference between the contractual cash flows of a financial instrument due from a counterparty and those that the Company would expect to receive, including the realization of any collateral or effect of any credit enhancement.
- *Exposure at default* – It represents the gross carrying amount of the financial instruments in the event of default which pertains to its amortized cost.

Measurement of the ECL is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument.

Derecognition of Financial Assets

The financial assets (or where applicable, a part of a financial asset or part of a group of financial assets) are derecognized when the contractual rights to receive cash flows from the financial instruments expire, or when the financial assets and all substantial risks and rewards of ownership have been transferred to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

Merchandise Inventories

Merchandise inventories are valued at the lower of cost and net realizable value. Cost is determined using the moving average method. The cost of inventories includes all costs directly attributable to acquisition such as the purchase price, including transport and handling costs, and other incidental expenses incurred in bringing the inventories to their present location and condition.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale.

At the end of each reporting period, inventories are assessed for impairment, i.e., the carrying amount is fully recoverable due to damage, obsolescence or declining selling prices.

Other Assets

Other assets, which are non-financial assets, pertain to other resources controlled by the Company as a result of past events. They are recognized at cost in the financial statements when it is probable that the future economic benefits will flow to the Company and the asset has a cost or value that can be measured reliably. They are derecognized, charged to profit or loss, or reclassified to another asset account upon consumption or use.

Advances for purchases that will be applied as payment for future purchase of inventories are classified and presented under the Other Current Assets account in the statement of financial position. On the other hand, advances to suppliers that will be applied as payment for future acquisition or construction of property and equipment are classified and presented under the Other Non-Current Assets account in the statement of financial position. The classification and presentation is based on the eventual usage or realization of the asset to which it was advanced for.

Other recognized assets of similar nature, where future economic benefits are expected to flow to the Company beyond one year after the end of reporting period or in the normal operating cycle of the business, if longer, are classified as non-current assets.

An asset's carrying amount is written down to its recoverable amount if the carrying amount is greater than its estimated recoverable amount.

Property and Equipment

All items of property and equipment are stated at cost less accumulated depreciation, accumulated amortization, and any impairment in value.

The cost of an asset comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, major improvements and renewals are capitalized; expenditures for repairs and maintenance are charged to expense as incurred.

Depreciation is computed on a straight-line basis over the estimated useful lives of the assets as follows:

Store equipment	15 to 18 years
Furniture, fixtures and office equipment	5 to 15 years
Transportation equipment	8 to 10 years
Rights-of-use assets	2 to 16 years

Leasehold improvements are amortized over their estimated useful lives of 18 years or the lease term, whichever is shorter.

Right-of-use assets are depreciated on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use assets or the end of the lease term.

Construction-in-progress represents properties under construction and is stated at cost. This includes cost of construction, applicable borrowing costs and other direct costs. The account is not depreciated until such time that the assets are completed and available-for-use.

Fully depreciated and fully amortized assets are retained in the accounts until these are no longer in use and no further charge for depreciation and amortization is made in respect of those assets.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The residual values, estimated useful lives and method of depreciation and amortization of property and equipment are reviewed, and adjusted if appropriate, at the end of each reporting period.

If there is an indication that there has been a significant change in the useful life, residual value of an asset, or method of depreciation or amortization, the depreciation or amortization of that asset is revised prospectively to reflect the new expectations.

An item of property and equipment including the related accumulated depreciation and amortization, and impairment losses, if any, is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in profit or loss in the period the item is derecognized.

Financial Liabilities

Financial liabilities, which include Trade and Other Payables (except tax-related liabilities), Loans Payable, Lease Liability and Due to Related Parties, are recognized when the Company becomes a party to the contractual terms of the instrument. All interest-related charges incurred on a financial liability are recognized as Finance costs under Finance Income (Costs) in the statement of comprehensive income.

Loans payable are raised for support of short-term and long-term funding of operations and are recognized initially at the transaction price. Loans payable are subsequently measured at amortized cost. Finance charges, including direct issue costs, are charged to profit or loss, except for capitalized borrowing costs, on an accrual basis using the effective interest method and are added to the carrying amount of the instrument to the extent that these are not settled in the period in which they arise.

Trade and other payables, and due to related parties are recognized initially at their fair values and subsequently measured at amortized cost, using effective interest method for maturities beyond one year, less settlement payments.

Financial liabilities are classified as current liabilities if payment is due to be settled within one year or less after the end of the reporting period (or in the normal operating cycle of the business, if longer), or the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period. Otherwise, these are presented as non-current liabilities.

Financial liabilities are derecognized from the statement of financial position only when the obligations are extinguished either through discharge, cancellation or expiration. The difference between the carrying amount of the financial liability derecognized and the consideration paid or payable is recognized in profit or loss.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the resulting net amount, considered as a single financial asset or financial liability, is reported in the statement of financial position. The right of offset occurs when the Company currently has legally enforceable right to set-off the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously. The right of set-off must be available at the end of the reporting period, that is, it is not contingent on future event. It must also be enforceable in the normal course of business, in the event of default, and in the event of insolvency or bankruptcy; and, must be legally enforceable for both entity and all counterparties to the financial instruments.

Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Company's Board of Directors (BOD), - its chief operating decision-maker. The Company's BOD is responsible for assessing performance of the operating segments. In identifying its operating segments, management generally follows the Company's business line as disclosed in Note 4.

The measurement policies that the Company uses for segment reporting under PFRS 8, *Operating Segments*, are the same as those used in its financial statements.

In addition, corporate assets which are not directly attributable to the business activities of any operating segment are not allocated to a segment.

There have been no changes from prior periods in the measurement methods used to determine reported segment profit or loss.

Provisions and Contingencies

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive obligation that has resulted from past events.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the end of the reporting period, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. When time value of money is material, long-term provisions are discounted to their present values using a pretax rate that reflects market assessments and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

In those cases, where the possible outflow of economic resource as a result of present obligations is considered improbable or remote, or the amount to be provided for cannot be measured reliably, no liability is recognized in the financial statements. Similarly, possible inflows of economic benefits to the Company that do not yet meet the recognition criteria of an asset are considered contingent assets; hence, are not recognized in the financial statements. On the other hand, any reimbursement that the Company can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset not exceeding the amount of the related provision.

Revenue and Expense Recognition

Revenue arises mainly from the sale of merchandise.

To determine whether to recognize revenue, the Company follows a five-step process:

- (1) identifying the contract with a customer;
- (2) identifying the performance obligation;
- (3) determining the transaction price;
- (4) allocating the transaction price to the performance obligations; and,
- (5) recognizing revenue when/as performance obligations are satisfied.

For Step 1 to be achieved, the following five gating criteria must be present:

- (i) the parties to the contract have approved the contract either in writing, orally or in accordance with other customary business practices;

- (ii) each party's rights regarding the goods or services to be transferred or performed can be identified;
- (iii) the payment terms for the goods or services to be transferred or performed can be identified;
- (iv) the contract has commercial substance (i.e., the risk, timing or amount of the future cash flows is expected to change as a result of the contract); and,
- (v) collection of the consideration in exchange of the goods and services is probable.

Revenue is recognized only when (or as) the Company satisfies a performance obligation by transferring control of the promised goods or services to a customer. The transfer of control can occur over time or at a point in time.

A performance obligation is satisfied at a point in time unless it meets one of the following criteria, in which case it is satisfied over time:

- (i) the customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs;
- (ii) the Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; and,
- (iii) the Company's performance does not create an asset with an alternative use to the Company and the entity has an enforceable right to payment for performance completed to date.

The Company enters into transactions involving the sale and delivery of merchandise representing construction materials, home improvement, furnishings and décor products. In addition, the Company also recognizes vendors' support and marketing fees in relation to the vendors' participation in the marketing/promotional activities of the Company. The significant judgments used in determining the transaction price and the amounts allocated to the performance obligations are disclosed in Note 3. The transaction price allocated to performance obligations satisfied at a point in time is recognized as revenue when control of the goods transfers to the customer. As a matter of accounting policy, when applicable, if the performance obligation is satisfied over time, the transaction price allocated to that performance obligation is recognized as revenue as the performance obligation is satisfied (see Note 3).

In addition, the following specific recognition criteria must also be met before revenue is recognized:

- a) *Sale of merchandise* – Revenue is recognized when the control transfers at a point in time with the customer, i.e., generally when the customer purchased the merchandise. For individual customers, payment of the transaction price is due immediately at the point the customer purchases the merchandise. On the other hand, invoices for merchandise purchased by corporate customers are due based on agreed terms and are provided upon receipt of merchandise by the customer. For e-commerce sales, revenue is recognized when control of goods has transferred to the customer, being at the point of the goods are delivered to the customer. Delivery occurs when the goods have been shipped to the customer's specific location.
- b) *Vendors' support and marketing fees* – Vendors' support and marketing fees arise from the vendors' participation in the marketing/promotional activities of the Company such as product exhibits, launch of new stores support and product features in various media platforms. The duration of contracts is generally short-term, and the related revenue are recognized over time as the performance of the contractually agreed tasks are rendered.
- c) *Delivery fees* – Delivery fees are charged for the transportation of merchandise from the Company's stores to a certain destination as agreed with the customer. Delivery fees are recognized over time as the services are provided. Payment of delivery fees is due immediately, i.e., upon the customer's purchase of merchandise.

- d) *Miscellaneous*– Miscellaneous income comprise of support received from supplier for store opening and clearance sales. Miscellaneous is recognized at a point in time when support is received from supplier.

As applicable, if the Company is required to refund the related purchase price for returned goods, it recognizes an outflow of cash or a reduction in trade receivables with a corresponding adjustment on the amount of revenues recognized during the reporting period. Also, the Company recognizes a right of return asset on the goods to be recovered from the customers with a corresponding adjustment to Cost of Merchandise Sold. However, there were no contracts containing significant right of return arrangements which remain outstanding during the reporting periods since the Company's policy with customers for most of its sale of merchandise pertain to outright return which are recognized immediately. Relative to this outright return arrangement, the amount of revenues is also immediately adjusted as of the end of the reporting periods.

Under the Company's standard contract terms for sale to customers, only goods found to be shoddy or defective shall be honored for return. The right of return is not a separate performance obligation and is not considered in establishing the transaction price since right of return entitles the customer to exchange the product bought for another product of the same type, quality, condition and price.

The Company operates a customer loyalty incentive programme where individual customers accumulate points for purchases made which entitle them for award credits on future purchases. The Company allocates a portion of the consideration received to loyalty points. This allocation is based on the relative stand-alone selling prices. The stand-alone selling price is estimated based on the equivalent value given when the points are redeemed by the customer and the likelihood of redemption, as evidenced by the Company's historical experience. The significant judgments used in determining the transaction price and the amounts allocated to the performance obligations are disclosed in Note 3.

A liability is recognized for revenue relating to the loyalty points at the time of the initial sales transactions. Revenue from loyalty points are recognized when the points are redeemed by the customer. Revenue from loyalty points that are not expected to be redeemed by the customer is recognized in proportion to the pattern of rights exercised by customers.

In obtaining customer contracts, the Company incurs incremental costs. As the expected amortization period of these costs, if capitalized, would be less than one year, the Company uses the practical expedient in PFRS 15 and expenses such costs as incurred.

The Company also incurs costs in fulfilling contracts with customers. These costs are divided into: (i) costs that give rise to an asset; and, (ii) costs that are expensed as incurred. When determining the appropriate accounting treatment for such costs, the Company first considers any other applicable standards. If other standards preclude capitalization of a particular cost, then an asset is not recognized under PFRS 15. If other standards are not applicable to contract fulfilment costs, the Company applies the following criteria, which, if met, result in capitalization:

- (i) the costs directly relate to a contract or to a specifically identifiable anticipated contract;
- (ii) the costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and,
- (iii) the costs are expected to be recovered.

Costs and expenses are recognized in profit or loss upon utilization of the goods or services or at the date they are incurred. All finance costs are reported in profit or loss on an accrual basis, except capitalized borrowing costs, which are included as part of the cost of any related qualifying assets

Leases

The Company accounts for its leases as follows:

(a) Company as Lessee

For any new contracts entered into, the Company considers whether a contract is, or contains, a lease. A lease is defined as a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration. To apply this definition, the Company assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Company;
- the Company has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract; and,
- the Company has the right to direct the use of the identified asset throughout the period of use. The Company assesses whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

At lease commencement date, the Company recognizes a right-of-use asset and a lease liability on the statement of financial position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received). Subsequently, the Company depreciates the right-of-use asset on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

On the other hand, the Company measures the lease liability at the present value of the lease payments unpaid at the commencement date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate. Lease payments include fixed payments (including in-substance fixed) less lease incentives receivable, if any, amounts expected to be payable under a residual value guarantee, and payments arising from options (either renewal or termination) reasonably certain to be exercised. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Company's lease contracts for certain stores contain variable lease payment terms. Instead of recognizing a right-of-use asset and lease liability, the payments in relation to these are recognized as an expense in profit or loss when incurred.

On the statement of financial position, right-of-use assets and Lease Liabilities have been presented under Property and Equipment, and separately from other liabilities, respectively, in the statement of financial position.

(b) Company as Lessor

Leases wherein the Company substantially transfers to the lessee all risks and benefits incidental to ownership of the leased item are classified as finance leases and are presented as receivable at an amount equal to the Company's net investment in the lease. Finance income is recognized based on the pattern reflecting a constant periodic rate of return on the Company's net investment outstanding in respect of the finance lease.

Leases which do not transfer to the lessee substantially all the risks and benefits of ownership of the asset are classified as operating leases. Lease income from operating leases is recognized in profit or loss on a straight-line basis over the lease term.

Impairment of Non-Financial Assets

The Company's property and equipment, and other non-financial assets are subject to impairment testing whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). As a result, some assets are tested for impairment either individually or at the cash-generating unit level.

Impairment loss is recognized for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amounts which is the higher of its fair value less costs to sell and its value in use. In determining value in use, management estimates the expected future cash flows from each cash-generating unit and determines the suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Company's latest approved budget, adjusted as necessary to exclude the effects of asset enhancements. All assets are subsequently reassessed for indications that an impairment loss previously recognized may no longer exist. An impairment loss is reversed if the asset's or cash-generating unit's recoverable amount exceeds its carrying amount.

Employee Benefits

The Company's employee benefits are recognized and measured as discussed below.

(a) Post-employment Defined Benefit Plan

A defined benefit plan is a post-employment plan that defines an amount of post-employment benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and salary. The legal obligation for any benefits from this kind of post-employment plan remains with the Company, even if plan assets for funding the defined benefit plan have been acquired.

The liability recognized in the statement of financial position for a defined benefit plan is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows for expected benefit payments using a discount rate derived from the interest rates of zero coupon government bonds [using the reference rates published by Bloomberg using its valuation technology, Bloomberg Valuation (BVAL), that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating to the terms of the related post-employment liability. BVAL provides evaluated prices that are based on market observations from contributed sources.

Remeasurements, comprising of actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are reflected immediately in the statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they arise. Interest is calculated by applying the discount rate at the beginning of the period, taking account of any changes in the defined benefit liability during the period as a result of benefit payments.

The calculation also takes into account of any changes in the defined benefit liability during the period as a result of benefit payments. Interest is reported as part of Finance Costs under Finance Income (Costs) – Net in profit or loss.

Past service costs are recognized immediately in profit or loss in the period of a plan amendment or curtailment.

(b) Post-employment Defined Contribution Plan

A defined contribution plan is a post-employment plan under which the Company pays fixed contributions into an independent entity. The Company has no legal or constructive obligations to pay further contributions after payment of the fixed contribution. The contributions recognized in respect of defined contribution plans are expensed as they fall due. Liabilities or assets may be recognized if underpayment or prepayment has occurred and are included in current liabilities or current assets as they are normally of a short-term nature.

(c) Short-term Employee Benefits

Short-term employee benefits include wages, salaries, bonuses and non-monetary benefits provided to current employees, which are expected to be settled before 12 months after the end of the annual reporting period during which an employee services are rendered, but does not include termination benefits. The undiscounted amount of the benefits expected to be paid in respect of services rendered by employees in an accounting period is recognized in profit or loss during that period and any unsettled amount at the end of the reporting period is included as part of Accrued expenses under Trade and Other Payables in the statement of financial position.

(d) Termination Benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Company recognizes termination benefits at the earlier of when it can no longer withdraw the offer of such benefits and when it recognizes costs for a restructuring that is within the scope of PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, and involves the payment of termination benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the reporting period are discounted to their present value.

(e) Compensated Absences

Compensated absences are recognized for the number of paid leave days (including holiday entitlement) remaining at the end of the reporting period. They are included in Trade and Other Payables in the statement of financial position at the undiscounted amount that the Company expects to pay as a result of the unused entitlement.

Borrowing Costs

Borrowing costs are recognized as expenses in the period in which they are incurred, except to the extent that they are capitalized. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset (i.e., an asset that takes a substantial period of time to

get ready for its intended use or sale) are capitalized as part of cost of such asset. The capitalization of borrowing costs commences when expenditures for the asset and borrowing costs are being incurred, and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalization ceases when substantially all such activities are complete.

Investment income, if any, earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Income Taxes

Tax expense recognized in profit or loss comprises the sum of current tax and deferred tax not recognized in other comprehensive income or directly in equity, if any.

Current tax assets or current tax liabilities comprise those claims from, or obligations to, fiscal authorities relating to the current or prior reporting period, that are uncollected or unpaid at the end of the reporting period. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or current tax liabilities are recognized as a component of tax expense in profit or loss.

Deferred tax is accounted for using the liability method, on temporary differences at the end of the reporting period between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes.

Under the liability method, with certain exceptions, deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and the carry forward of unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized. Unrecognized deferred tax assets are reassessed at the end of each reporting period and are recognized to the extent that it has become probable that future taxable profit will be available to allow such deferred tax assets to be recovered.

Deferred tax assets and deferred tax liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled provided such tax rates have been enacted or substantively enacted at the end of the reporting period.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

The measurement of deferred tax assets or deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Most changes in deferred tax assets or deferred tax liabilities are recognized as a component of tax expense in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Deferred tax assets and deferred tax liabilities are offset if the Company has a legally enforceable right to set-off current tax assets against current tax liabilities and the deferred taxes relate to the same entity and the same taxation authority.

Related Party Transactions and Relationships

Related party transactions are transfers of resources, services or obligations between the Company and its related parties, regardless whether a price is charged.

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These parties include: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Company; (b) associates; and, (c) individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the Company and close members of the family of any such individual.

In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely on the legal form.

Based on the requirements of SEC Memorandum Circular 2019-10, *Rules on Material Related Party Transactions for Publicly-Listed Entities*, transactions amounting to 10% or more of the total assets based on the latest audited financial statements that were entered into with the related parties are considered material.

All individual material related party transactions shall be approved by at least two-thirds vote of the BOD, with at least a majority of the independent directors voting to approve the material related party transactions. In case that a majority of the independent directors' vote is not secured, the material related party transaction may be ratified by the vote of the stockholders representing at least two-third of the outstanding capital stock. For aggregate related party transactions within a 12-month period that breaches the materiality threshold of 10% of the Company's total assets based on the latest audited financial statements, the same BOD approval would be required for the transactions that meet and exceed the materiality threshold covering the same related party.

Directors with personal interest in the transaction should abstain from participating in the discussions and voting on the same. In case they refuse to abstain, their attendance shall not be counted for the purposes of assessing the quorum and their votes shall not be counted for purposes of determining approval.

Equity

Capital stock represents the nominal value of shares that have been issued.

Additional paid-in capital includes any premium received on the issuance of capital stock. Any transaction costs associated with the issuance of shares are deducted from additional paid-in capital.

Revaluation reserves account pertains to remeasurements of post-employment defined benefit plan.

Retained earnings represent all current and prior period results of operations as reported in the profit or loss section of the statement of comprehensive income, reduced by the amounts of dividends declared, if any.

Basic and Diluted Earnings Per Share

Basic earnings per share (EPS) is determined by dividing net profit by the weighted average number of common shares issued, adjusted for any stock dividends or stock splits, less any shares held in treasury during the reporting period (see Note 19).

The diluted EPS is also computed by dividing net profit by the weighted average number of common shares issued and outstanding during the reporting period. However, net profit attributable to common shares and the weighted average number of common shares outstanding are adjusted to reflect the effects of any potentially dilutive preferred shares, convertible loans and stock options. Currently, the basic and diluted EPS are the same as there are no dilutive preferred shares, convertible loans and stock options (see Note 20).

Events After the End of the Reporting Period

Any post-period event that provides additional information about the Company's financial position at the end of the reporting period (adjusting event) is reflected in the financial statements. Post-period events that are not adjusting events, if any, are disclosed when material to the financial statements.

3. Significant Accounting Judgments and Estimates

The significant accounting judgments, estimates and assumptions used in the preparation of the interim condensed financial statements are consistent with those used in the annual financial statements as at and for the year ended December 31, 2021.

4. Segment Reporting

The Company has only one reportable segment, i.e., its trading business, which caters to individual and corporate customers.

Further, the Company has only one geographical segment as all of its operations are based in the Philippines.

The revenue of the Company consists mainly of sales to external customers through its retail and e-commerce channels.

5. Cash and Cash Equivalents

Cash and cash equivalents includes the following components:

	Unaudited Mar 31, 2022	Audited Dec 31, 2021
Cash in banks	₱1,188,280,433	₱1,790,302,985
Cash on hand	5,130,000	5,240,000
Short-term placements	50,000,000	90,000,000
	<u>₱1,243,410,433</u>	<u>₱1,885,542,985</u>

Cash in banks generally earn interest at rates based on daily bank deposit rates.

Short-term placements have maturity of 1 to 180 days and earn effective interest rates ranging from 0.55% to 1.65% in 2022 and 2021.

Finance income on these bank deposits and short-term placements for the three months ended March 31, 2022 and 2021, amounted to ₱0.3 million and ₱0.4 million, respectively.

6. Trade and Other Receivables - net

This account is composed of the following:

	Note	Unaudited Mar 31, 2022	Audited Dec 31, 2021
Trade receivables- third parties		₱252,024,459	₱169,575,587
Non-trade receivables		260,991,966	247,961,788
Others	18	24,137,542	24,137,542
		537,153,967	441,674,917
Allowance for impairment losses		(57,876,811)	(57,876,811)
		₱479,277,156	₱383,798,106

Trade receivables are due from various customers and have credit terms ranging from 30 days to 60 days. The carrying amounts of the receivables are considered a reasonable approximation of fair values due to their short duration.

Non-trade receivables comprise of the Company's receivables from suppliers arising from vendors' support, marketing fees, miscellaneous income.

Others pertain to receivable for the transferred retirement benefit obligation from a related party under common ownership (see Note 18).

All of the Company's trade and other receivables have been assessed for ECL. The Company assessed that the existing allowance for impairment losses is sufficient as of March 31, 2022.

7. Merchandise Inventories

Merchandise inventories pertain to goods owned by the Company, which include construction materials, home improvements, furnishings and décor products, among others, that are traded under the normal course of business, and amounted to ₱7.2 billion and ₱7.1 billion as of March 31, 2022 and December 31, 2021, respectively (see Note 14.1).

The Company did not provide any allowance for inventory obsolescence as the inventories are deemed saleable. Merchandise inventories were all stated at cost, which is lower than net realizable value, as of March 31, 2022 and December 31, 2021. Cost of inventories charged to operations are presented as Cost of Merchandise Sold in the statements of comprehensive income (see Note 14.1)

Casualty losses due to fire on merchandise inventories on store outlets located in Alabang amounted to ₱83.8 million (Note 21).

8. Other Assets

The composition of this account is shown below:

	Note	Unaudited Mar 31, 2022	Audited Dec 31, 2021
Current:			
Advances for purchases		₱1,942,228,265	₱2,007,698,453
Prepaid rent		47,531,825	95,127,299
Deferred input value-added taxes (VAT)		8,891,893	9,376,906
Others		86,271,180	27,278,044
		2,084,923,163	2,139,480,702
Non-current:			
Advances to suppliers		546,667,105	181,571,118
Materials and supplies	9	384,787,523	384,787,523
Security deposit		194,897,418	176,385,614
		1,126,352,046	742,744,255
		₱3,211,275,209	₱2,882,224,957

Advances for purchases pertaining to mobilization funds made to various third party suppliers, which are primarily used in the purchase of inventories subsequent to March 31, 2022 and December 31, 2021 are presented as part of Other Current Assets in the statements of financial position.

Advances to suppliers pertaining to mobilization funds made to various contractors for the construction of several items under property and equipment are presented as Other Non-Current Asset in the statements of financial position.

Materials and supplies represent unused consumable construction materials (see Note 9).

Security deposits include deposits made to lessors arising from the lease of retail spaces. This will be refunded at the end of the lease term or be applied to the last months' rentals on the related contracts.

Others consist of prepaid repairs, supplies, insurance and advertising.

Construction-in-progress pertains to accumulated costs incurred on the construction of new stores.

The amount of depreciation and amortization is presented as part of Selling, General and Administrative Expenses in the statements of comprehensive income (see Note 14.2).

As of March 31, 2022 and December 31, 2021, borrowing cost amounting to ₱47.0 million and ₱220.3 million, respectively, based on capitalization rate ranging from 5.50% to 8.25%, were capitalized as part of construction-in-progress (see Note 11).

Casualty losses due to fire on various property and equipment on store outlets located in Alabang amounted to ₱219.3 million (Note 21).

In 2021, the Company reclassified certain Construction-in-progress amounting to ₱90.1 million which pertains to unused construction materials to Materials and supplies under Other Non-Current Assets in the statement of financial position (see Note 8).

As of March 31, 2022 and December 31, 2021, the gross carrying amount of the Company's fully depreciated property and equipment that are still used in operations is ₱58.9 million.

There were no items of property and equipment that were used as collateral for any of the Company's loans.

10. Trade and Other Payables

This account consists of:

	Unaudited Mar 31, 2022	Audited Dec 31, 2021
Trade payables	₱845,261,289	₱1,090,217,999
Non-trade payables	19,286,907	10,498,035

Others	3,496,298	3,498,936
	₱944,663,419	₱1,229,678,273

Trade payables arise from the Company's purchases of inventories and other direct costs. These are noninterest-bearing and have credit terms ranging from 30 to 60 days.

Non-trade payables arise from the Company's capital asset acquisitions and other operating expenditures not yet paid as of the end of the period.

Accrued expenses are liabilities arising from unpaid interest on loans, rent, utilities, salaries and other costs.

Retention payable pertains to the amount withheld from service contractors which shall be refunded at the end of the contract.

Others consist of payable to government agencies, retention payable and rewards liability.

11. Loans and Borrowings

The account consists of:

	Unaudited Mar 31, 2022	Audited Dec 31, 2021
Current:		
Short-term loans	P2,044,418,931	P2,044,418,931
Non-Current:		
Long-term loans	2,900,000,000	P2,900,000,000
	P4,944,418,931	P4,944,418,931

11.1 Short-term Loans

The Company obtained various short-term loans from various local banks for the Company's working capital requirements with fixed interest rates ranging from 4.87% to 6.50% in 2022 and 5.50% to 8.25% in 2021, and with terms of 180 days. These loans are rolled-over upon maturity. There are no loan covenants on the Company's short-term loans.

11.2 Long-term Loans

In 2021, the Company obtained four-year corporate loans, from various local banks, to partially fund the Company's capital expenditure requirements, refinance existing indebtedness, and to fund other general corporate purposes, with a fixed interest rate of 5.00% to 5.85%.

Certain loans of the Company with local banks are subject to covenants. The Company has to maintain a minimum current ratio of at least 1.00, maximum debt-to-equity ratio of not more than 2.50 and a minimum debt-service coverage ratio of at least 1.00. The ratios are computed on the basis of the Company's annual audited financial statements. The Company has properly complied with the loans covenants as of March 31, 2022 and December 31, 2021. The Company monitors capital on the debt-to-equity ratio on its covenants with certain financial institutions.

Interest expense incurred on these loans, which is presented as part of Finance costs under Finance Income (Costs) in the statements of comprehensive income, amounted to P23.9 million and P4.5 million for the three months period ended March 31, 2022 and 2021, respectively (see Note 15). On the other hand, capitalized borrowing costs amounting to P47.0 million and P220.3 million, respectively, as of March 31, 2022 and December 31, 2021, were included as part of construction-in-progress based on capitalization rate ranging from 5.50% to 8.25% for specific borrowing in this period (see Note 9).

Interest payable from these loans amounted to P17.4 million and P19.3 million as of March 31, 2022 and December 31, 2021, respectively, and is presented as part of Accrued expenses under Trade and Other Payables in the statement of financial position (see Note 10).

12. Leases

12.1 Lease Liability

Lease liability is presented in the statement of financial position as of March 31, 2022 and December 31, 2021 as follows:

	Unaudited Mar 31, 2022	Audited Dec 31, 2021
Current	₱619,839,263	₱613,792,986
Non-current	3,702,168,962	3,927,898,004
	₱4,322,008,225	₱4,541,690,990

12.2 Additional Profit or Loss

Expenses recognized for the period are as follows:

	Note	Unaudited Mar 31, 2022	Unaudited Mar 31, 2021
Depreciation expense of right-of-use assets	9	₱209,866,479	₱122,820,820

Variable lease payments	14.2	70,898,373	112,777,499
		₱356,785,593	₱312,914,253

In 2022, the Company derecognized right-of-use assets with a carrying amount of ₱52.8 million, as a result of the fire damages in the Company's store outlets. The corresponding lease liabilities derecognized amounted to ₱74.2 million. Gain on lease modification amounting to ₱21.4 million was recognized and is presented as part of General and Administrative Expenses in the 2022 statement of comprehensive income (see Note 14.2). There was no similar transaction in 2021.

13. Sales

The Company's revenues arise from sale transactions with individual and corporate customers in the Philippines totaling to ₱3.2 billion and ₱3.6 billion for the three-months period ended March 31, 2022 and 2021, respectively.

The disaggregation on revenue recognition whether point in time or over time for period ended March 31, 2022 is shown below:

	Point in time	Over time	Total
Sale of merchandise (Note 18.1)	₱3,238,565,509	₱—	₱3,238,565,509

Other employee benefits		10,398,280	8,139,299
		P95,164,568	P84,955,790

16.2 *Post-employment Defined Benefit Plan*

(a) *Characteristics of the Defined Benefit Plan*

The Company maintains an unfunded, noncontributory post-employment defined benefit plan covering all qualified employees.

The normal retirement age of the Company's employees is at 60 with a minimum of five years of credited service. The compulsory retirement age is at 65 with a minimum of five years of credited service. The normal retirement benefit is equal to 100% of the monthly salary multiplied by every year of credited service.

(b) *Explanation of Amounts Presented in the Financial Statements*

The most recent actuarial valuation dated March 9, 2022 was performed by a professionally qualified external actuary.

The movements in the present value of the retirement benefit obligation recognized in the statements of financial position are as follows:

	Unaudited Mar 31, 2022	Audited Dec 31, 2021
Balance at beginning of the period	₱70,385,602	₱68,318,864
Current service cost	2,695,411	12,175,509
Interest expense	876,332	2,729,200
Transferred liability	–	(774,563)
Actuarial losses	–	(12,063,408)
Balance at the end of the period	₱73,957,345	₱70,385,602

The interest expense is included as part of Finance Costs under Finance Income (Costs) in the statements of comprehensive income (see Note 15).

In determining the amount of the retirement benefit obligation, the following significant actuarial assumptions were used for the period ended March 31, 2022 and December 31, 2021:

Discount rate	5.18%
Expected rate of salary increases	7.75%

The plan exposes the Company to actuarial risks such as interest rate risk, longevity risk and salary risk.

Interest Rate Risk

The present value of the defined benefit obligation is calculated using a discount rate determined by reference to market yields of government bonds. Generally, a decrease in the interest rate of a reference government bonds will increase the plan obligation.

Longevity and Salary Risks

The present value of the defined benefit obligation is calculated by reference to the best estimate of the mortality of the plan participants during their employment and to their future salaries. Consequently, increases in the life expectancy and salary of the plan participants will result in an increase in the plan obligation.

The information on the sensitivity analysis for certain significant actuarial assumptions and the timing and uncertainty of future cash flows related to the retirement plan as of March 31, 2022 and December 31, 2021 are discussed below risk.

	Impact on Retirement Benefit Obligation		
	Change in assumption	Increase in assumption	Decrease in assumption
Discount rate	+/-1%	(8,175,215)	9,837,972
Salary growth rate	+/-1%	9,839,299	(8,343,738)

The sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. This analysis may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation recognized in the statements of financial position.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous years.

The plan is currently unfunded by ₱70.4 million based on the latest actuarial valuation. While there is no minimum funding requirement in the country, the size of the underfunding may pose a cash flow risk that the Company may be exposed to if several employees retire within the same year. The Company has yet to determine when to establish a retirement fund and how much to contribute.

The maturity profile of the undiscounted expected benefit payments as of March 31, 2022 and December 31, 2021 from the plan follows:

Within five years	₱13,483,085
More than five years to 10 years	41,582,053
More than 10 years	698,829,085
	<u>₱753,894,223</u>

Management expects that a substantial portion of the undiscounted expected benefit payments is probable after 10 years from the end of the reporting period. The weighted average duration of the defined benefit obligation at the end of the reporting period is 24 years.

17. Income Taxes

The components of tax expense as reported in profit or loss are:

	Unaudited Mar 31, 2022	Unaudited Mar 31, 2021
Regular corporate income tax (RCIT)	₱73,238,039	₱130,828,924

	<u>₱91,720,006</u>	<u>₱114,711,326</u>

A reconciliation of tax on pretax profit computed at the applicable statutory rates to tax expense reported in profit or loss is as follows:

	Unaudited Mar 31, 2022	Unaudited Mar 31, 2021
Tax on pretax profit at statutory rate	₱15,952,405	₱114,730,034
Adjustment for income subjected to lower tax rate	(14,919)	(18,708)
Tax effects of non-deductible expense	75,782,520	—
Tax expense	₱91,720,006	₱114,711,326

The Company is subject to the Minimum Corporate Income Tax (MCIT) as defined under the tax regulations, or RCIT, whichever is higher. The Company reported RCIT for the period ended March 31, 2022 and 2021.

The deferred tax liabilities as of March 31, 2022 and December 31, 2021 relate to the following:

	Statements of Financial Position		Statements of Comprehensive Income

Deferred tax expense (income)			₱18,422,291	(₱16,192,431)

The Company claimed itemized deductions for 2022 and 2021 in computing for its income tax due.

On March 26, 2021, Republic Act (R.A.) No. 11534, Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act, as amended, was signed into law and shall be effective beginning July 1, 2020. The following are the major changes brought about by the CREATE Act that are relevant to and considered by the Company:

- regular corporate income tax (RCIT) rate was reduced from 30% to 25% starting July 1, 2020;
- minimum corporate income tax (MCIT) rate was reduced from 2% to 1% starting July 1, 2020 until June 30, 2023; and,

- the allowable deduction for interest expense is reduced from 33% to 20% of the interest income subjected to final tax.

As a result of the application of the lower RCIT rate of 25% starting July 1, 2020, the current income tax expense and income tax payable, as presented in the 2020 annual income tax return (ITR) of the Company, were lower by P24.3 million than the amount presented in the 2020 financial statements and such amount was charged to 2021 profit or loss.

18. Related Party Transactions

The Company's related parties include its ultimate parent company, parent company, related parties under common ownership, key management personnel and others. On January 8, 2022, the Company's store outlets located at Alabang, Muntinlupa City, were severely damaged by fire. The estimated losses on inventory and property and equipment amounted to P83.8 million and P219.3 million, respectively. As of the date of issuance of the financial statements, insurance claims are in process and are expected to be settled within the year.

22. Commitments and Contingencies

The significant commitments and contingencies involving the Company are presented below:

22.1 Lease Commitments – Company as Lessee

The total rental expense recognized from variable leases payments amounted to P70.9 million and P112.8 million for the three months ended March 31, 2022 and 2021, respectively, and are presented as Rentals under Selling, General and Administrative Expenses in the statements of comprehensive income (see Note 14.2).

22.2 Others

There are other commitments, guarantees and contingent liabilities that may arise in the normal course of operations of the Company which are not reflected in the financial statements. As of March 31, 2022 and December 31, 2021, management is of the opinion that losses, if any, from these items will not have any material effect on the Company's financial statements, taken as a whole.

23. Risk Management Objectives and Policies

The Company is exposed to a variety of operational and financial risks in relation to financial instruments. The Company's risk management is coordinated with its parent company, in close cooperation with the Company's BOD.

The Company does not normally engage in the trading of financial assets for speculative purposes nor does it write options. The most significant operational and financial risks to which the Company is exposed to are described below.

23.1 Interest Rate Risk

The Company's policy is to minimize interest rate cash flow risk exposures on short-term financing. The Company is exposed to changes in market interest rates through its cash in banks, which are subject to variable interest rates. However, due to its short-duration, management believes that the interest rate sensitivity and its effect on the net result for the period and equity are not significant (see Note 5).

23.2 Credit Risk

Credit risk is the risk that counterparty may fail to discharge an obligation to the Company. The Company is exposed to this risk for various financial instruments, for example by granting receivables to customers and related parties, and placing deposits.

The Company continuously monitors defaults of other counterparties, identified individually, and incorporates this information into its credit risk controls. The Company's policy is to deal only with creditworthy counterparties.

Except for cash in banks, none of the Company's financial assets are secured by collateral or other credit enhancements.

(a) Cash

The credit risk for cash is considered negligible since the counterparties are reputable banks with high quality external credit ratings. Included in the cash are cash in banks which are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of ₱0.5 million for every depositor per banking institution.

(b) Trade and Other Receivables

The Company applies the PFRS 9 simplified approach in measuring ECL which uses a lifetime expected loss allowance for all trade and other receivables.

The expected loss rates on trade receivables are based on the payment profiles of sales over a period of 36 months before March 31, 2022 and December 31, 2021, and the corresponding historical actual default losses experienced within such period.

The Company identifies a default when the receivables become credit-impaired or when the customer is not able to settle the receivables within the normal credit terms of 30 to 60 days, depending on the terms with customers; hence, these receivables were already considered as past due on its contractual payment. In addition, the Company considers qualitative assessment in determining default such as in instances where the customer is unlikely to pay its obligations and is deemed to be in significant financial difficulty.

On that basis, the loss allowance as at March 31, 2022 and December 31, 2021 was determined based on months past due, for trade receivables, excluding advances to officers and employees, as follows:

Unaudited Mar 31, 2022	Within 1 year	1 to 2 years	2 to 3 years	More than 3 years	Total
Expected loss rate	0.00%	84.74%	94.88%	100.00%	
Gross carrying amount	188,792,720	20,881,134	42,350,605	—	252,024,459
Loss allowance	—	17,695,599	40,181,212	—	57,876,811

Audited Dec 31, 2021	Within 1 year	1 to 2 years	2 to 3 years	More than 3 years	Total
Expected loss rate	0.00%	84.74%	94.88%	100.00%	
Gross carrying amount	106,343,848	20,881,134	42,350,605	—	169,575,587
Loss allowance	—	17,695,599	40,181,212	—	57,876,811

(c) *Security deposits*

The Company is not exposed to any significant credit risk exposure, since the counterparties are reputable lessors with sound liquid position. The Company can apply such deposits to future payments in case it defaults.

23.3 *Liquidity Risk*

The Company manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term financial liabilities as well as cash outflows due in a day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for a six-month and one-year period are identified monthly.

The Company maintains cash to meet its liquidity requirements for up to 30-day periods. Excess cash are invested in short-term placements. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets.

24. Categories and Fair Value Measurements

Management considers that the carrying values of the Company's financial assets and financial liabilities, measured at amortized costs, approximate their fair values either because these instruments are short-term in nature or the effect of discounting for those with maturities of more than one year is not material.

See Note 2 for a description of the accounting policies for each category of financial instrument. A description of the Company's risk management objectives and policies for financial instruments is provided in Note 22.

24.1 *Fair Value Hierarchy*

In accordance with PFRS 13, *Fair Value Measurement*, the fair value of financial assets and liabilities and non-financial assets which are measured at fair value on a recurring or non-recurring basis and those assets and liabilities not measured at fair value but for which fair value is disclosed in accordance with other relevant PFRS, are categorized into three levels based on the significance of inputs used to measure the fair value. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value at Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

There are no financial assets and financial liabilities measured at fair value as of March 31, 2022 and December 31, 2021. Neither was there transfers among fair value levels in those years.

25. Capital Management Objectives, Policies and Procedures

The Company's capital management objective is to ensure the Company's ability to continue as a going concern entity. Essentially, the Company, in coordination with its parent company, monitors capital on the basis of the carrying amount of equity as presented in the statements of financial position.

The Company manages the capital structure and makes adjustments to consider changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

The Company monitors capital on the ratios on its covenants with certain financial institutions. Capital for the reporting periods is summarized as follows:

	Unaudited Mar 31, 2022	Audited Dec 31, 2021
Total liabilities	₱10,771,523,364	₱11,186,695,147
Total equity	14,598,103,147	14,626,013,539

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

REVIEW OF FIRST QUARTER END 2022 VS FIRST QUARTER END 2021

RESULTS OF OPERATIONS

Quarter Ended March 31, 2022 compared to quarter ended March 31, 2021 Sales

The company recorded sales of ₱3,238.6 million for the quarter ended 31 March 2022, a decrease of 9.8% from ₱3,591.8 million for the quarter ended 31 March 2021. This was mainly brought about by the decline in foot traffic in January to mid-February due to Covid-19 Omicron infection surge but eventually improved in the latter part of February and onwards as Alert Level 1 started to be implemented on March 1. The following table shows the key operating performance indicators relevant to the revenues for the period ended 31 March 2022 and 2021.

	As of and for the period ended March 31		
	2022*	2021	Percentage Change
Number of stores	57	52	3.8%
Net Selling Area (in sqms)	297,469	276,043	7.8%
Net Sales (₱ millions)	3,238.6	3,591.8	-9.8%
SSSG	-9.8%	2.8%	-

**Alabang stores are closed temporarily*

Cost of Merchandise Sold

For the quarter ended 31 March 2022, cost of merchandise sold was at ₱2,070.3 million, a decrease of 15% from the ₱2,447.5 million level for the same period in 2021 corresponding to the decrease in sales as well as due to lower cost of goods due to advance inventory buys in the previous quarters.

Support, Fees, Rentals and Other Revenues

Support, fees, rentals and other revenues decreased by 8% from ₱70.5 million for the quarter ended 31 March 2021 to ₱64.7 million for the quarter ended 31 March 2022, primarily due to the decrease in vendor's support.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased by 14% to ₱765.6 million for the quarter ended 31 March 2022 from ₱673.7 million for the same period in 2021, primarily due to the following:

- Increase in professional fees from ₱1.2 million for the quarter ended 31 March 2021 to ₱3.5 million for the quarter ended 31 March 2022 due to audit fees, BOD fees, and consultancy fees for sustainability reporting and e-commerce.
- Increase in depreciation and amortization from ₱253.7 million for the quarter ended 31 March 2021 to ₱388.8 million for the quarter ended 31 March 2022 primarily as a result in the increase of the number of stores.
- Increase in commission expense from ₱434.5 thousand from quarter ended 31 March 2021 to ₱528.5 thousand for the quarter ended 31 March 2022 as most corporate sales during the period were generated by external or third party sales teams.
- Increase in office and store supplies from ₱4.5 million for the quarter ended 31 March 2021 to

₱5.4 million for the quarter ended 31 March 2022 due primarily to purchases of supplies in the head office and due to increase in the number of stores.

- Increase in repairs and maintenance from ₱4.4 million for the quarter ended 31 March 2021 to ₱5.2 million for the quarter ended 31 March 2022 due additional sanitation implemented due to Covid-19 Omicron surge in the first half of the quarter.
- Increase in advertising and promotions from ₱2.2 million for the quarter ended 31 March 2021 to ₱2.6 million for the quarter ended 31 March 2022 due to usage of online and digital platforms for marketing purposes especially during the all-out sale of the Company.
- Increase in transportation expense from ₱1.1 million for the quarter ended 31 March 2021 to ₱1.3 million for the quarter ended 31 March 2022 primarily due to increasing fuel prices and also due to increase in deliveries from distribution centers to stores as well as inter-store stock transfers.
- Increase in salaries and wages from ₱85.0 million for the quarter ended 31 March 2021 to ₱95.2 million for the quarter ended 31 March 2022 due to the additional manpower for new stores.
- Increase in miscellaneous from ₱1.9 million for the quarter ended 31 March 2021 to ₱2.1 million for the quarter ended 31 March 2022 due to loss on disposal of defective assets under property and equipment.
- Increase in taxes and licenses from ₱26.0 million for the quarter ended 31 March 2021 to ₱28.4 million for the quarter ended 31 March 2022 due to the increasing number of newly opened stores.
- Increase in merchant fee from ₱29.8 million for the quarter ended 31 March 2021 to ₱31.0 million for the quarter ended 31 March 2022 due to the sales contributed by the new stores.
- Increase in outside services from ₱74.8 million for the quarter ended 31 March 2021 to ₱77.3 million for the quarter ended 31 March 2022 due to the additional manpower from agencies and delivery charges for inventory stocking for new stores and inter-store transfer of inventory stocks.
- Increase in communication and utilities from ₱70.2 million for the quarter ended 31 March 2021 to ₱70.7 million for the quarter ended 31 March 2022 primarily to the opening of new stores.
- Incurred a gain on lease modification of ₱21.4 million for the quarter ended 31 March 2022 due to derecognition and termination of rent of the Alabang stores, accounted under PFRS 16, due to the fire incident.
- Decrease in dues and subscription from ₱2.6 million for the quarter ended 31 March 2022 to ₱2.5 million for the quarter ended 31 March 2021 due to cost-saving measures implemented which include limited postings in online job portals.
- Decrease in insurance expense from ₱1.5 million for the quarter ended 31 March 2021 to ₱1.0 million for the quarter ended 31 March 2022 due to the Alabang stores temporary closure.
- Decrease in rentals from ₱112.8 million for the quarter ended 31 March 2021 to ₱70.9 million for the quarter ended 31 March 2022 due to lower sales given the cost structure of rental computation.
- Decrease in representation and entertainment from ₱1.7 million for the quarter ended 31 March 2021 to ₱0.6 million for the quarter ended 31 March 2022 due to the minimal physical meetings due to Covid-19 Omicron surge in the first half of the quarter.

Finance Cost, net

Finance cost, net increased from ₱82.1 million for the quarter ended 31 March 2021 to ₱100.5 million for the quarter ended 31 March 2022. The net increase was primarily attributable to the increase of ₱19.4 million in interest expense from loans payable and slightly offset by the decrease of ₱1.3 million in interest expense from

lease liability.

Tax Expense

Tax expense decreased by 20% from ₱114.7 million for the quarter ended 31 March 2021 to ₱91.7 million for the quarter ended 31 March 2022 due to lower taxable income for the quarter.

Fire Loss

On January 8, 2022, the Company's store outlets located at Alabang, Muntinlupa City, were severely damaged by fire. The estimated losses on inventory and property and equipment amounted to ₱83.8 million and ₱219.3 million, respectively.

Net Profit

As a result of the foregoing, our net profit or loss decreased by 108% from ₱344.2 million net income for the quarter ended 31 March 2021 to ₱27.9 million net loss for the quarter ended 31 March 2022.

FINANCIAL CONDITION

As of 31 March 2022 vs. 31 December 2021

Total assets as of 31 March 2022 were ₱25,369.6 million compared to ₱25,812.7 million as of 31 December 2021, or a 2% decrease due to the following:

- Cash decreased by 34% from ₱1,885.5 million as of 31 December 2021 to ₱1,243.4 million as of 31 March 2022 as the cash generated were used primarily for the capital expenditures of new stores undergoing fit-out, and setting up of new head offices and data centers as previous offices were damaged by fire.
- Trade and other receivables increased by 25% from ₱383.8 million as of 31 December 2021 to ₱479.3 million as of 31 March 2022 due mainly to increase in accredited corporate accounts during the period.
- Merchandise Inventories increased by 1% from ₱7,055.6 million as of 31 December 2021 to ₱7,160.3 million as of 31 March 2022 due primarily to slightly lower purchases of inventories in the first quarter.
- Property and equipment decreased by 2% from ₱13,605.5 million as of 31 December 2021 to ₱13,275.4 million as of 31 March 2022 due primarily to disposals attributed to the Alabang fire.
- Other assets increased by 11% from ₱2,882.2 million as of 31 December 2021 to ₱3,211.3 million as of 31 March 2022 due primarily to advances to suppliers and contractors.

Total liabilities as of 31 December 2021 were ₱11,186.7 million compared to ₱10,771.5 million as of 31 March 2022, or a 4% decrease. This was due to the following:

- Trade and other payables decreased by 23% from ₱1,229.7 million as of 31 December 2021 to ₱944.7 million as of 31 March 2022 due to payments of payables for the purchases of inventories and fit-out construction.
- Loans payable including non-current portion as of 31 March 2022 is same as of 31 December 2021 at ₱4,944.4 million as no additional loan was incurred for the quarter.
- Lease liability including non-current portion decreased by 5% from ₱4,541.7 million as of 31 December 2021 to ₱4,322.0 million as of 31 March 2022 due to lease payments made.
- Income tax payable increased by 75% from ₱89.7 million as of December 31, 2021 to ₱157.3 million as of 31 March 2022 due to tax payable for the period.

- Deferred tax liabilities increased by 6% from ₱310.8 million as of December 31, 2021 to ₱329.2 million as of 31 March 2022 due to the adjustments to temporary tax differences for the period.
- Retirement benefit obligation increased by 5% from ₱70.4 million as of 31 December 2021 to ₱74 million as of 31 March 2022 due to adjustment of provision for the retirement benefit.

Total stockholder's equity decreased by 0.2% from ₱14,626 million as of 31 December 2021 to ₱14,598.1 million as of 31 March 2022 due to net loss recorded for the period.

Considered as the top five key performance indicators of the Company as shown below:

Key Performance Indicators	3/31/2022	3/31/2021

Support, fees, rentals and other revenues decreased by 8% from ₱70.5 million for the quarter ended 31 March 2021 to ₱64.7 million for the quarter ended 31 March 2022, primarily due to the decrease in vendor's support.

Selling, general and administrative expenses increased by 14% to ₱765.6 million for the quarter ended 31 March 2022 from ₱673.7 million for the same period in 2021 due to the above-mentioned reasons.

Finance cost, net increased from ₱82.1 million for the quarter ended 31 March 2021 to ₱100.5 million for the quarter ended 31 March 2022. The net increase was primarily attributable to the increase of ₱19.4 million in interest expense from loans payable and slightly offset by the decrease of ₱1.3 million in interest expense from lease liability.

On January 8, 2022, the Company's store outlets located at Alabang, Muntinlupa City, were severely damaged by fire. The estimated losses on inventory and property and equipment amounted to ₱83.8 million and ₱219.3 million, respectively.

As a result of the foregoing, our net profit or loss decreased by 108% from ₱344.2 million net income for the quarter ended 31 March 2021 to ₱27.9 million net loss for the quarter ended 31 March 2022.

There is no other material change in the Company's financial position (changes of 5% or more) and condition that will warrant a more detailed discussion.
